

Place this side in a first floor near or on the front door if you **do not need** emergency assistance during a disaster

OK

During a disaster

If you are indoors during an earthquake, get under sturdy desk or table

During a flood or tsunami, get to high ground if you can safely

If you are outside get away from buildings, trees and power lines

During a fire, evacuate as quickly and safely as you can

If you are driving during an earthquake or storm, safely pull to the side of the road

During a disaster turn off stoves and extinguish any open flames if you can do so

Place this side in a first floor near or on the front door if you need emergency assistance.

# HELP

After the Disaster

Turn on battery powered or car radio for information

Check gas, water and power. Check the building for damage

Switch off electrical power if you suspect damage

Check food and water supplies

Clean up spilled liquids
