

Experience the Most Ultimate and Uniquely Designed Mobile Bar!

Meet Lexie Burling, Owner of Oakley Vines Mobile Bar Co.

Local Murrells Inlet resident, Lexie Burling, is the proud owner of Oakley Vines Mobile Bar Co. She has been in the hospitality field for over twenty years and has experience in all positions for executing various kinds of events from start to finish. When it comes to design and set up, she has a great eye for detail and can make almost any imagination come alive!

For the last few years, Ms. Burling has worked at the Chive Blossom Café, which she says is amazing. She is also a REALTOR for The Litchfield Co. Lachicotte in Pawleys Island, South Carolina, so you can see she has extensive talents in other areas of business as well.

Not only is this beautiful and intelligent young business woman proficient in more than one profession, she is a true visionary who will achieve success in her new endeavor.

"I had thoughts of starting a business like this about seven years ago while visiting my best friend in Pennsylvania," Ms. Burling said. After attending many festivals throughout the years, she began to question why all festivals have beer trucks and not wine or bar trucks. Like many who dream of opening a unique business, but never follow through, Ms. Burling had the same drive and desire, but put off implementing plans for a mobile wine bar for a few years. She thought there was no way to actually put her plans into motion and accomplish bringing her ideas to fruition.

Then, COVID came along and put every country in a panic, which halted the way we were accustomed to living our daily lives and running businesses of every kind. It caused us all to become more creative with developing new ways of "publicly" being together without risk. Many towns across America adopted the idea of becoming mobile when it comes to patrons ordering menu items and beverages. *"The more I saw this concept being used, the more I decided to take the plunge myself,"* Ms. Burling said.

Her beautiful mobile bar was created by NOMAD DESIGNS, a small business in Virginia Beach. This wooden mobile bar was built-to-order with custom butcher block counters inside, gorgeous gold sink, gray backsplash, and a small bed or bench to relax. They also have a gorgeous custom made white portable bar for smaller events or as an add-on for larger events.

Oakley Vines Mobile Bar Co. is a bar/bartending service company that will come to your private residence, venue or even your community clubhouse – any event big or small. They are especially excited about offering cocktail-making classes and wine tasting parties. They also offer several customized packages from basic beer and wine to delicious craft cocktails with fresh squeezed juices and craft shrubs with beautiful local garnishes. The vision for Oakley Vines LLC is to bring you the "Ultimate Unique Bar Experience".

Planning a pre-wedding party or outdoor reception this spring or summer?

Your request is our pleasure – we will be happy to bring our customized bar to your event and decorate it to your liking and put the WOW factor into your special occasion.

Check out our Website for more details and I am so excited to meet each and everyone of y'all!
