### The Round Earth Conspiracy

One of the most underreported and suppressed news stories of 2024 relates to the widely disseminated Round Earth Conspiracy.

Few people are aware of the great peril and death toll that has resulted from ignoring the accepted, scientifically proven, flat earth reality and falling for the round earth misinformation campaign.

Even the Bible refers to the 'four corners of the earth' in Isaiah 11:12 and believers know this could only refer to a flat earth and not a sphere.

But every year ignorant travelers flock to cruise ships and head from the west coast of the United States to Hawaii. They tell their envious friends, "We're sailing to our tropical paradise."

They don't know that 'sailing to Hawaii' is merely a metaphor and the reality is that they are sailing into oblivion and literally falling off the edge of the earth.

When these travelers book their trip, they ignore the fine print and fail to notice that they are not booking with a bona fide travel agent but with a euthanasia specialist or an assisted suicide consultant.

Most travelers find out too late, after engaging in conversation with their fellow passengers and learn the real definition of 'sailing to Hawaii'. If only they had not discounted the soothsayers on the dock holding signs saying 'You are sailing to your doom' or hadn't brushed aside the equally strong evidence presented by prominent WikiLeaks whistleblowers that the earth was flat.

But by this time, when they are in the middle of the Pacific, it is too late to change their itinerary. This is a one way voyage over the edge, into the abyss.

Every year dozens of cruise ships and tens of thousands of passengers disappear on one of these trips to Hawaii.

The government depends on these cruises to cull the rolls of social security recipients and keep social security solvent. And every year the scenario repeats itself. People sail to Hawaii, never to be seen again.

Government agents send out bogus post cards, texts and emails to travelers' friends and loved ones saying, "Loved it so much in Hawaii, we decided to stay."

The terrifying truth would be too shocking to grasp...an ocean liner, with thousands of screaming passengers, goes off the edge of the earth into the void, never to be seen again.

Flat earth...the evidence is incontrovertible.

In regards to Hawaii, a government spokesperson refused to confirm or deny its existence, stressing, "It is important for individuals to make up their own minds on this polarizing issue and not be swayed by charismatic pundits."
