1. COMPANY PROFILE

About Easy Lab Tech, LLC

Easy Lab Tech, LLC is an independent specimen collection and occupational health clinic located in Maryville, Illinois.

We provide professional specimen collection and paramedical examination services for insurance, employers, clinical and wellness programs.

Our services include:

- Life insurance paramedical examinations
- Height, weight and body measurements
- Blood pressure and pulse
- Blood specimen collection
- Urine specimen collection
- EKG/ECG services
- Medical history information gathering
- Specialty specimen collection

Easy Lab Tech is committed to providing professional, efficient and applicant-focused service while maintaining accurate documentation and specimen-handling procedures.

2. SERVICE AREA

Primary Service Area

Southern Illinois (Madison County, St. Clair County)

Why Easy Lab Tech Prefers In-Office Life Insurance Examinations**A Controlled Environment for a Better Applicant Experience**

At Easy Lab Tech, LLC, we prefer to conduct life insurance paramedical examinations in our professional office setting whenever possible.

We believe an in-office examination provides a more consistent, comfortable, private, and controlled experience for both the applicant and our examination staff.

Our office environment is specifically equipped to perform the services required for life insurance examinations, including measurements, vital signs, specimen collection, and other authorized examination requirements.

Benefits for the Applicant

Privacy & Comfort

Applicants can complete their examination in a private, professional healthcare environment rather than in a home, workplace, or other location that may not provide adequate privacy.

Consistent Conditions

Blood pressure, pulse, height, weight, and other measurements can be performed in a controlled environment with the appropriate equipment and minimal distractions.

Professional Equipment

Our staff has access to the equipment and supplies needed to complete the examination properly and efficiently.

One Convenient Visit

Whenever the carrier's requirements allow, applicants can complete multiple examination requirements during one visit, reducing the need for repeated appointments.

Professional Experience

Applicants receive a welcoming, professional experience from trained staff in an established healthcare setting.

Benefits for Easy Lab Tech Staff

In-office examinations also allow our staff to provide a more consistent level of service.

Controlled Examination Environment

Our staff can control the examination setting, equipment, workspace, and specimen-collection conditions.

Improved Efficiency

Staff can complete multiple examination requirements without the travel time and logistical challenges associated with mobile appointments.

Specimen Security & Handling

Specimens can be collected and handled within our established office workflow, helping maintain appropriate chain-of-custody and specimen-handling procedures.

Equipment Availability

Required examination equipment and supplies are immediately available at the office.

Scheduling Consistency

Keeping examinations in-office allows us to better manage appointments, staffing, and turnaround times.

Reimbursement Rates

Keeping examinations in office allows us to keep our reimbursement rates competitive.
