

MONTIBELLO

HAIR CARE PRODUCT CATALOGUE

EXCLUSIVELY PROFESSIONAL TOTAL BEAUTY

Founded in 1967, Montibello is today the Spanish professional Cosmetics company with greatest international projection and one of the few companies which incorporates the concept of total beauty as the fundamental pivot of its business. Its mission: for its clients and consumers to live unique beauty experiences.

Our brand is synonymous with innovation, quality, closeness and support in professional hairdressing and beauty sectors, with a great technological capacity and a clear innovative vision which is applied in the development of the different product lines. Also, in the creation of tools and advanced training systems to give support to the development of our clients.

Our expansion on an international level is a fact. The brand's products are present in many countries in Europe, America and Asia, widely implanted and notably successful in these markets.

We have a large team of professionals who make it possible that, day after day, thousands of hairdressing salons and beauty centres continue to trust our brand, situating us in the first positions in the market.

CROMATONE

PERMANENT HAIR COLOURING

CROMATONE

The perfection of colour. A technologically advanced oxidation colouration process, reliable and of a high quality, with which you can feel safe at all times. A palette of bright colours, a level of uniformity, colour intensity, duration and seamless comfort for an expert colour service without limits. It incorporates the SCP (Soya Color Protect) complex which magnifies the results of the colour and guarantees an excellent treatment and maximum respect for the hair fibre. Colours which are even from roots to tips, intense highlights, hues which are sharper and more luminous, excellent covering of grey hair and hair which is healthier and softer. It should be mixed with the Oxibel cream oxidant in the proportion 1:1. All the CROMATONE tones can be mixed with each other.

CROMAXTREM

High intensity direct colourants to obtain copper/coppery, red/reddish and purple tones of a great purity, both on natural and coloured hair.

3 units x 60 g

CROMATONE METEORITES BLONDE - SUPERBLONDE

A selection of creams that lift hair colour by up to 4 shades (Blonde range) or up to 5 shades (Superblonde range) to achieve ultra-luminous blondes with multidimensional tones and flawless, even colour results.

Reveals rejuvenated, brighter, purer blonde shades with a luminous aura and provides satin shine, leaving hair silky to the touch.

3 units x 60 g

The first and only colour platform that illuminates and rejuvenates blonde hair thanks to the dual LUMIPLEX system.

LUMIPLEX consists of two powerful technologies:

OXIBEL ACTIVATING CREAM

OXIDISING AGENT IN CREAM

OXIBEL ACTIVATING CREAM

Hair oxidising product in cream for preparing hair tints, colour rinses (tone-on-tone) and decolouring processes. Formulated specially to protect hair, it is ideal for obtaining the right texture for each technical colouring or decolouring process. It facilitates coverage and colour evening in the tinting processes.
