

Summerhill Residents Association Priorities 2023

The SRA board monitors neighbourhood issues as they arise. The board comments on development proposals, parks, traffic, and any number of day-to-day concerns such as parking, road obstructions, and fun neighbourhood events like the Summerhill Fair. It also meets with other residents' associations to discuss matters of common interest and liaises with our City Councillor and staff. The following outlines some current issues to keep you in the loop.

1. TTC

The TTC is upgrading the Summerhill station to make it accessible. The new entrance is scheduled to be opened in Spring 2024 and project completion for early 2024. There have been ongoing road obstructions on Shaftesbury. The SRA is working with the TTC office to address residents' concerns as they arise and mitigate disruptions. The impact of traffic being reduced to only one eastbound lane on Shaftesbury has been felt by the entire neighbourhood.

2. DEVELOPMENT

In the last year the approved developments along the Yonge Street Corridor (Bloor to Heath Street) have increased from 17 to 28. We continue to monitor these developments and share any insights that developers give us.

3. ROSEHILL RESERVOIR REHABILITATION PROJECT

The SRA will continue to identify and monitor the deficiencies in the little park and reservoir and liaise with City Parks department to ensure repairs are carried out. The official opening is still to be announced.

3. RAVINES

The SRA is a member of both the Midtown Ravines Group (stewardship to enhance ravine quality, cleanups) and the Vale of Avoca Working Group. We monitor the ravine conditions and are waiting to hear when/if any money is going to be allocated to this area.

4. FONTRA

The SRA is a founding member of FONTRA, a federation of over 30 North Toronto Residents Associations lobbying on planning, the Committee of Adjustment, and transportation. We continue to be an active member of this group.
