

Summerhill Station

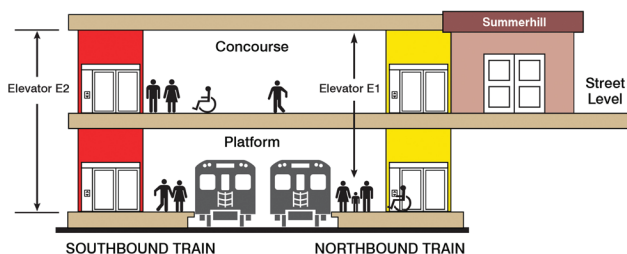

Easier Access Project

Construction

Start date: Fall 2021

End date: 2024

* Timelines are approximate and subject to change.

Plant Rescue at Summerhill Station

After 30 years, we have to say goodbye to the garden next to the Summerhill Station. On Sunday, July 18, a Plant Rescue has been planned by our neighbour at 28 Shaftesbury. Please come with your shovels and pots to give these plants a new home.

Date: Sunday, July 18, 2021
Time: 11 a.m. – 2 p.m.

Project Overview

TTC's Easier Access Program will make all subway stations accessible to everyone. Construction to make Summerhill Station accessible is expected to begin this fall. Elevators will enter service by the end of 2023 and some construction activities will continue into 2024.

Work at Summerhill Station will include the construction of a new main entrance, the installation of two elevators, automatic sliding doors, accessible fare gates and new signage.

Further details are available on the project website or by subscribing for regular updates using the contact information below.

TTC Service

The station will remain open at all times during construction.

Work Hours

The majority of the work will be completed between Monday and Friday from 7 am to 7 pm. Some weekend or evening work may be necessary.
