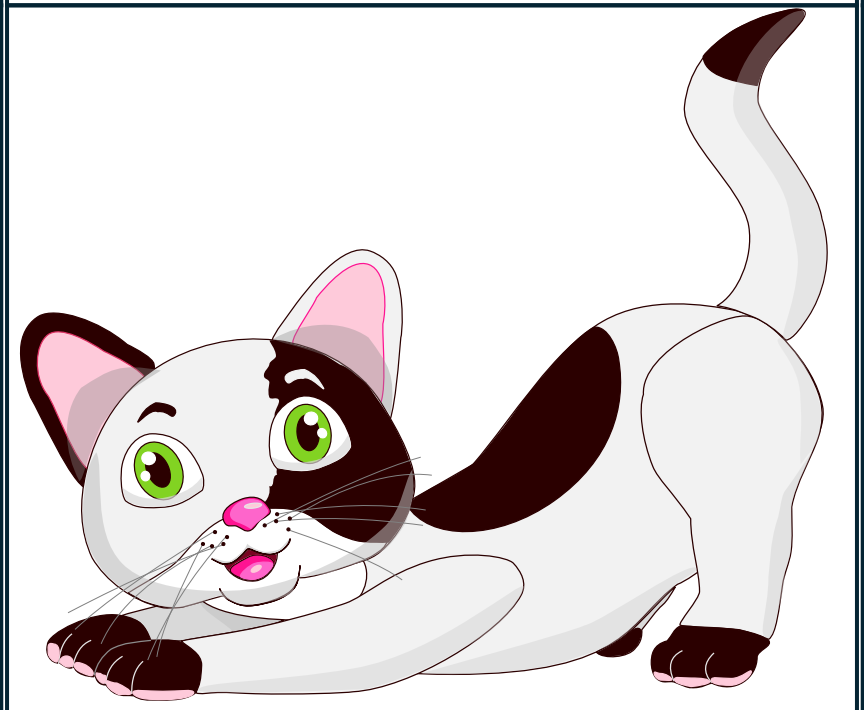
Character Gallery

One of my hobbies is creating vector graphics. I have used them in learning products and in stop animation sequences utilizing Vyond or Adobe After Effects. Some of the following characters I created, upon request, on behalf of corporate or non-profits. The characters that I created are suitable for diversity and inclusion purposes and do not demonstrate humanistic characteristics but still embody the ethos of the organization. I have modified them for confidentiality purposes. I create them using Krita, Adobe Illustrator, XPEN drawing tablet, and PowerPoint.

I also created an animal alphabet that I turned into a large poster for the kid's corner in the reception area of a non-profit.

I also created a series of characters that I used for ESL lessons on English idioms.

I also create learning products with standard stock images.



A

Alligator – Southern United States of America
Accessory – New Orleans Mardi Gras bead necklace and King crown

B

Brown bear – United States of America
Accessory – baseball cap

C

Cow– global
Accessory – straw hat
