

During my career I have developed storyboards in different formats and different software apps. This storyboard example was part of a large eLearning product that I created on cybersecurity for an organization who was extremely concerned about the issue. I found this format of visual storyboarding to be the most effective with the subject matter experts that I was working with, and I rarely had any change orders. This section of the product was on the topic of phishing and included a game. The product was created using custom graphics that I created and was built using Storyline and Vyond. I love creating visually appealing products, with interactivity, especially when the topic is so important for the learners to understand and retain. I feel that this particular product showcases how I use games to support the learner in knowledge acquisition. The benefit was that I could quickly and easily create the storyboard within the given time allowance. However, I do try to tailor the formatting of the storyboards that I develop for the subject matter expert's preferences that I am working with.

Slide	Title	Build	Notes	Change order
39	Phishing		<ul style="list-style-type: none"> Slide includes custom Vyond gif. Narration: As part of our cybersecurity protocols, let's look at phishing. CC: As part of our cybersecurity protocols, let's look at phishing. When you are ready, please click the begin button. Build: Custom navigation bar and buttons. 	
40	What is phishing?		<ul style="list-style-type: none"> Slide includes custom Vyond gif. Multiple choice question. Narration: What is phishing? CC Select your answer by checking the toggle box. Then click on submit. Correct answer to slide 40.1 Incorrect answer to slide 40.2 	
40.1	Correct			

Slide	Title	Build	Notes	Change order
40.2	Incorrect	<p data-bbox="604 105 743 134">Incorrect</p>  <p data-bbox="604 316 718 332">Sorry. Try again.</p> <p data-bbox="856 300 898 316">Return</p> <p data-bbox="422 349 443 365">cc</p>		
41	Types of phishing (introduction to types slide)	<p data-bbox="537 417 804 446">Types of phishing</p> <p data-bbox="451 475 865 570">Although there are many types of phishing scams that are used let's look at the top five.</p>  <p data-bbox="856 641 898 657">Next</p> <p data-bbox="422 657 443 673">cc</p>	<ul data-bbox="968 410 1455 511" style="list-style-type: none"> • Introduction to the Phish Game • Animated fish that swims across bottom of page. 	
42	Introduction to game	<p data-bbox="527 725 821 755">The Phishing Game</p> <p data-bbox="430 781 548 797">How to play</p> <ul data-bbox="430 803 800 891" style="list-style-type: none"> • Use your cursor keys to move the fish to each worm. • Each time you feed your fish you will learn about a different type of phish.  <p data-bbox="856 933 898 950">Begin</p> <p data-bbox="422 966 443 982">cc</p>	<ul data-bbox="968 719 1528 959" style="list-style-type: none"> • How to play the game • Narration: To feed your fish use your keyboard cursor keys to move right or left or up and down. • Each time you feed your fish your will learn about a different type of phishing scam. 	
43	Game board	 <p data-bbox="422 1274 443 1291">cc</p>	<ul data-bbox="968 1032 1528 1378" style="list-style-type: none"> • Each time the learner successfully navigates their fish to a worm a pop-up window will appear. • The five types of phishing that will be covered are: <ul data-bbox="968 1209 1396 1378" style="list-style-type: none"> • Email. • Spear. • Whaling. • Business email compromise. • Voice phishing. 	Change voice phishing to HTTPS phishing.
