

## Camera & NVR

### Product Features:

Packed with the newest CCTV technology, our 2net SmartHome Wireless Security Camera System provides 3MP full HD resolution with ultra clarity.

Its wireless design means no more ugly cords or complicated wiring to get the systems going. Simply plug in to start operating with minimum hassle. And with its high-efficiency H.264+ video compression capability, you can triple the recording time by lowering the bitrate and occupying less bandwidth, saving you hard drive costs. In the event of a power outage, all data is protected effectively. Better still, you can download the app and enable 4-channel simultaneous live viewing via your smartphone. The system comes with HDMI and VGA outputs for easy connections to enable real-time monitoring.

Note: This product requires a Hard Drive (not included) to record the video

Note: NVR connects Internet via wire.

### Product parameters:

- Item Description: Quantity:
- Item Description:Quantity:
- 3MP Wireless Square Camerax 8
- 3MP 8CH WiFi NVRx 1
