

BIGMAX Cranes

ECO Series

Compact, Cost Effective Knuckleboom Cranes

Choice

- Four models from 18,800 to 69,300 ft lbs (2.6 to 9.6 t/m)
- Maximum reach to 36.5 feet
- Lift capacity to 8800 lbs
- All models include built-in hydraulic outrigger stabilizers
- Winches and other options available

Strength

- Strong, light weight hexagonal boom construction
- Fabricated from high tensile steel
- In-line boom designed for strength and maximum reach
- Two year comprehensive parts and labour warranty
- Complies with ANSI B 30.5, DIN 15018 and EN12999 Standard

Economy

- Quality crane at a low price
- Modular design for reduced repair costs
- Less weight, better fuel economy
- Narrow profile for smaller installation space
- Modular frame for easy installation
- Dual side controls
