GALE SUVER / New Painting Releases
MAC WORTHINGTON / Sculptures

March 6 - April 26th

Artist's Reception March 13th 6-8:30p

"Say It Loud" describes a conversation between Gale's expressive, textural paintings and Mac's bold, energetic sculptures. Together, the works invite viewers to experience a dynamic tension and balance—where rigid and fluid, grounded and suspended, and organic and constructed elements coexist.
