The **Collarum® Cable Restraint Trap** was developed in co-operation with the USDA National Wildlife Research Center in Fort Collins, CO. The Domestic Dog model was created to effectively attract and capture dogs, while allowing them to relax once captured as they would if collared & leashed.

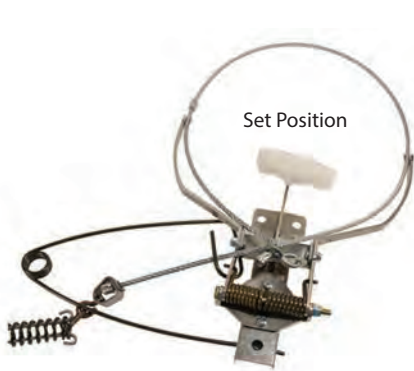

NACOSP

NCDM.002

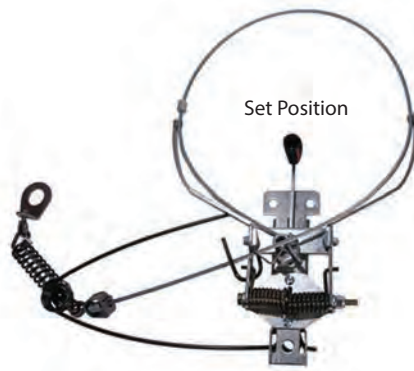

The Domestic Dog unit utilizes a 3/16" cable with a **Relaxalock** and an adjustable stop affixed to the cable to accommodate a 30 - 70lb. dog.

The **Collarum®** has been used extensively throughout the U.S., Canada, the U.K., Spain & Australia for the capture of canines. The military has used them on bases in Iraq & Afghanistan for the humane removal of feral dogs. Extensively field tested at the National Wildlife Research Center in Denver. We are pleased to be offering this product as it is the latest technology development in live-capture cable restraint systems.

VP-NCOM.001

Collarum® Deluxe for COYOTE, stainless steel, humane, canine specific live capture device for such species as coyote, dingo, hyena and animals of similar size. Adjustable trigger, reusable cable, no rusting, low maintenance.

VP-NCOM.003

Collarum® for FOX has arms which are 1" shorter than the coyote model to accommodate the smaller stance of a fox and utilizes a 8.5"-9" cable loop for animals up to 20 lbs. or with a smaller head; the cable diameter used for the fox model is 5/32" with an appropriately sized Shurlock. The fox model Collarum® also requires less space for setting versus the coyote model.

VP-NCOM.005

Collarum® Deluxe for WOLF is a humane, canine-specific live capture device specially designed for capturing wolves and animals of a similar size. The base unit includes a longer trigger and throw arms to accommodate the longer stance of a wolf. The cable assembly constructed of 3/16" 7x19 Galvanized aircraft cable has a heavy-duty stainless-steel lock, a 135 lb. shock spring, a moveable stop on the cable to adjust for target animal, and a stainless swivel with Quick Link for anchoring.

Collarum Canine Bait (CCB) causes an excellent "bite & pull" response from all canines, which is necessary for activating the Collarum. Originally developed as an M44 bait, CCB also is an excellent performer at grub stakes, walk throughs, and dirt hole sets. As an added bonus we have found this canine meat-based food bait to be an excellent spring skunk & raccoon bait.

As an added bonus we have found this canine meat-based food bait to be an excellent spring skunk & raccoon bait.

VP-W014

Roadrunner is made of fresh animal products and holds up well in all conditions with a strong food attraction for Canines, Cats and other predators. Roadrunner is extremely attractive in the early season to

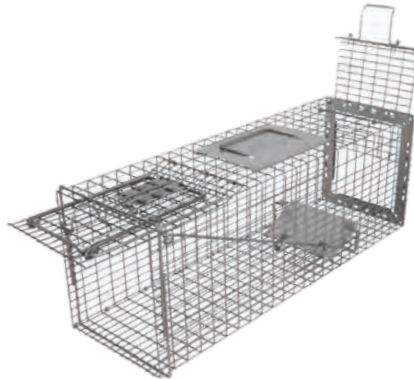

coyotes. Provokes a strong bite & pull response needed for M44's and the Collarum® Cable Restraint device.

VP-WTJRR

“Professional Grade” Cage Traps Our Professional grade traps come in 3 sizes to give you options for capturing a variety of animals. Constructed with galvanized mesh with an easy set feature and double locking.

VP-W30PROR*

VP-W24PRO

VP-W55PRO**

LARGE 30"L x 11"W x 12"H

(use for Raccoon, Woodchuck, Large Opossum, Armadillo, Feral Cat)

- Heavy duty 13-gauge galvanized mesh
- Internal bait tray travel stops.
- Heavy duty bait tray to eliminate damage by trapped animals
- Additional operating rod support rings for superior durability
- 1/2" x 1" 13-gauge wire covers floor, back and lower portion of sides of trap, 1" x 1" on other areas of trap
- Carrying handles and hand guard
- Trap door reinforced to provide maximum performance and superior animal retention
- Slide Release back door for easy baiting and animal release

* Not pictured: 30" also available with a solid mesh back (no back door)

VP-W30PRO

MEDIUM 7"W x 8"H x 24"L

(use for Skunk, Rabbit, Squirrel, Opossum)

- Heavy duty 13-gauge galvanized mesh
- Internal bait tray travel stops
- Heavy duty bait tray to eliminate damage by trapped animals
- Additional operating rod support rings for superior durability
- 1/2" x 1" 13-gauge wire covers floor, back and lower portion of sides of trap, 1" x 1" top portion of trap
- Carrying handles and hand guard
- Trap door reinforced to provide maximum performance and superior animal retention

SMALL 5"W x 5"H x 18"L

(use for Tree and Ground Squirrels, not just for Gray Squirrels)

- Constructed of 1/2" x 1/2" mesh to securely hold any squirrel or rat
- A simplified locking mechanism and finger grip, allows setting with one hand
- A door guide was installed to make setting this trap smooth and easy every time!

** Not pictured: 18" is also available with 1" x 1/2" mesh.

VP-W55STD

Trap Covers are great for protecting captured animals from the elements. They also hide trapped animals so people passing by don't see them and become alarmed. The trap cover can be left on the trap when transporting the animal, giving you added protection. Covers have a calming effect on most trapped animals. They are durable, easy to clean, and fold flat for easy storage.

(A) LARGE fits 30" L traps
VP-WPROTC-30

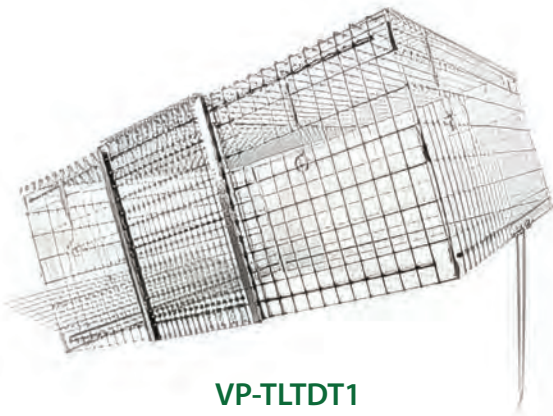

(B) MEDIUM fits 24" L traps
VP-WPROTC-24

(C) SMALL fits 18" L traps
VP-WPROTC-18

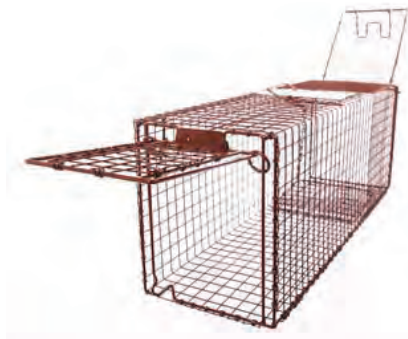

VP-TLTD1

Our **Drop Trap** is designed with help from the "Neighborhood Cats" organization. The trap collapses to 36"x18"x4" for easy storage and transportation but is easy to set up in seconds. This convenient cat trap allows you to catch wary cats with a simple pull of the string. Comes with a built-on prop, easy release sliding door, and a weight flap to hold the trap in place. Drop traps are simply the most effective way to catch "trap shy" cats.

The Tru-Catch™ 30LTD Light Duty Cage Trap is perfect for feral cats, rabbits and other small animals. This is the best-selling Tru-Catch trap for animal shelters, humane societies and rescue organizations.

VP-TC30LTD

The 30LTD incorporates a 3/16" steel frame consisting of ribs travelling from front door to rear door in 2 corners. The front door and rear door are constructed from 3/16" steel wire and the pan is constructed from 1/8" steel wire.

Attracting the animal that you want to capture is essential when trapping. Our lures are formulated to attract specific animals while limiting non-target captures. These baits and lures have been used by professionals for over 30 years.

NB Squirrel & Rodent Paste Bait is a rich mix of nut oils, meats (NO Peanuts) & seeds that squirrels find simply irresistible. This bait is spiked with an anti-drying agent to increase the bait's effectiveness. NB is proven effective with chipmunk, gray, red, & flying squirrels. For a change-up bait, give it a try on Norway Rats & mice.

VP-N002

Whistle Pig Woodchuck Paste Bait is a blend of no less than four irresistible essential oils, plants, and vegetable juices compounded to really make the Woodchuck's mouth water. At a time when food is plentiful you have to offer them something they can't resist... that is "Whistle Pig"

VP-N009

Fearless Rat and Mouse Lure, is a proprietary blend of nut oils and meats (No Peanuts), seeds, and a special ingredient scientifically proven to reduce neophobic behavior in rodents. Excellent results with squirrels and chipmunks as well.

VP-N015

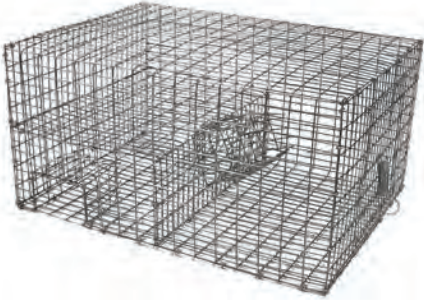

TreeBerry Paste Bait is truly a general-purpose bait. Great on raccoon, skunk, even opossum, this sweet-smelling paste bait fills the air with its aromatic scent and is a combination of tree-ripened fruit essence puree along with an undertone of bush berries.

VP-N003

Applelicious Paste Bait is great for rabbit, raccoon and skunk, this paste based lure has an explosive apple aroma, designed to fill the air around your trap. Field tested to attract more finicky animals.

VP-N014

VP-WKBSPT

Multi Catch Sparrow Trap is easy to use as it comes ready to position, no setting necessary. This trap has 2 entry points and a release door. There are no moving parts to worry about. You should observe the flight path of the sparrows to make sure that the trap is placed where the birds are flying and gathering. Set it in these commonly approached areas and bait it with seed or breadcrumbs. We suggest using millet as an attractant. You can also place a small bowl with water, which will also be attractive to the birds. You need some patience as it could take time for the birds to find the seed and enter the trap. Once you start trapping birds, leave any nesting or other items brought in by the birds as this too will attract others. 16"L x 12"W x 8"H.

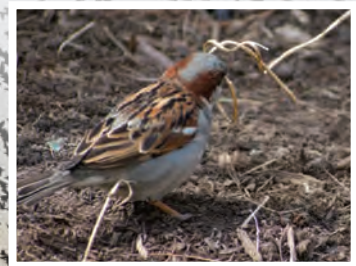

VP-NSTWH

Wooden Sparrow Trap Birdhouse is the perfect tool for control of pesky sparrows, whether they are in an enclosed space, robbing your bird feeder, or invading bluebird boxes. It looks like any other birdhouse but conceals a hidden trap! Inside is a spring-loaded door that snaps shut when a sparrow enters and lands on a perch positioned beneath the opening. The door has a fluorescent orange sticker affixed to it so you can tell when the door is closed. The opening in the trap measures 1.25 inches, which is a perfect size for sparrows. Overall trap dimensions are 9"H x 5"W x 5.5"D, and each one includes a mounting bracket and detailed instructions.

VP-WSP4

Sparrow Treat Seed Bait consists of millet (white and/or red mixture) which has been found to be preferential to house sparrows. This is the recommended bait to use when deploying Sparrow Sleds in "big box" stores. You can use a couple of pieces of white bread for EYE APPEAL to enhance the baiting program, but you should be using millet as your primary bait when your target is house sparrows.

(A) 17" x 17" x 2.5"
(for Woodpecker, Starling,
Sparrow, Pigeon)
VP-WRC17

(B) 24" x 24" x 2.5"
(for Pigeons, Crows, Ravens,
Grackles, Small chickens)
VP-WRC24

(C) 36" x 36" x 2.5"
(for Chickens, Ducks, Crows)
VP-WRC36

The **E-Z Catch Bird Trap** is a spring-loaded frame with an attached soft nylon mesh net, that is triggered when the bird goes for seed or corn placed on the feed pan. A pivot shifts the pan and releases a setting pin that allow the net to close over the bird. The frame of the trap is .25" steel rod, and the floor is made with wire mesh. All metal components are powder-coated to resist rust. Available in 3 sizes so you can fit the size to the target bird.

VP-WPWSLDE

The **Sparrow Sled** is a unique two-chamber hanging trap designed for discreet applications in high traffic areas (think "big box" stores). The trap size is 24"L x 13"W x 13"H with a bottom sled measuring 33"L x 13.5"W x 4"D, allows for a large catch capacity while several exclusive features make it ideal for sensitive customers. Water bottles prevent birds from dehydrating and expiring and the sled provides the birds with an outer perching area and captures any droppings or other debris that may fall from the trap. The sled has the added benefit of obscuring the contents of the trap from view when observed from below. There is an inherent cable system which creates a harness for easily mounting or hanging the trap from girders.

We have the best selection and highest quality **Vet-Pro Throw Net** for capturing birds, cats, dogs, and wildlife in the field. These nets are lightweight, strong, and easy to use. A weighted perimeter cord makes for easy throwing. Available in 4', 6' and 8' sizes each made with 1" mesh.

The 4' Throw Net is ideal for birds, cats, and small dogs. The 6' Throw Net is the most versatile. The 8' Throw Net is the largest. It is made with a 4" mesh and can be used to capture large dogs and deer.

VP-NTN4 (4')

VP-NTN6 (6')

VP-NTN8 (8')

Vet-Pro Hand Capture net is great for close quarters capture of birds, squirrel, bats, any small animal that has gotten into a space that they are not wanted. Net hoop measures 10" x 15", the 1/4" black nylon mesh is soft and flexible, and the handle has a 6" "comfort grip" that makes it easy to hang onto while maneuvering to capture your target.

VP-W3401

Vet-Pro Kwik-Fold Hand Net comes in two sizes:

Medium (18" x 16" x 19" deep) and Large (22" x 20" by 25" deep)

Each features a telescoping handle that extends on the Medium from 24" to 41" and on the Large from 35-64". A great net for capturing birds, bats, and other small animals. The telescoping handle makes it easy to store but gives you the reach you need to capture unwanted guests.

VP-W3607 (Medium)

VP-W3608 (Large)

The Freeman Cage Net is a very popular net. It features a deep, soft fine-meshed net where the hoop opens and closes by a sliding handle. The net has a unique hoop shape to help fit into cage corners. It's simple to use and best of all gentle on the animal. Ideally suited for use when handling cats, snakes and other wildlife under 25lbs (11kg). The zipper at the bottom of the bag makes for easy transfers/releases.

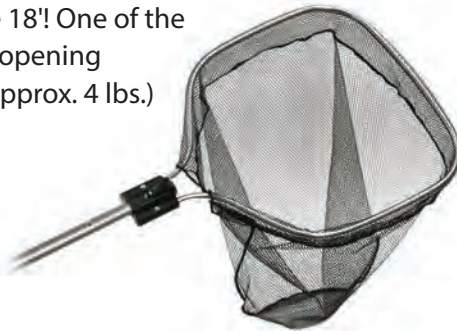

VP-WFCN

Vet-Pro Bat-Bird-Mammal Net is perfect for a wide variety of smaller animals from bats to cats. The hoop is a soft, fine-mesh black netting. The telescoping heavy-duty aluminum pole extends from 6.5' to an incredible 18'! One of the most versatile nets we offer. (Net opening 17" x 19", Net depth 24", Weight Approx. 4 lbs.)

Note: This net does not include a drawstring function.

VP-N3543

The Magnum Net hoop measures 32" X 41" with 2" mesh and 48" Handle. Quality, Durability & Performance. Magnum sets a new standard for strength durability and professional grade performance. Magnum's strength lies in its Brute Hoop design and revolutionary PowR-Lok yoke system. Both are backed by an industry exclusive lifetime warranty. The nets also feature an ergonomically designed comfort-fit handle.

VP-N8430Kit

Vet-ProTM

All Vet-ProTM gloves (except the Forester) are made of hand-cut, split grain cow-hide Palomino leather lined with ballistic DuPont[®] Kevlar[®] felt. Unlike knitted or woven versions, Kevlar[®] felt is tightly packed for maximum puncture resistance. Double stitched with Kevlar[®] thread, with a loose fit for dexterity and emergency removal. The Forester glove's palm is lined with Kevlar[®] and the cuff is double thick palomino leather. "MADE in the USA"

Vet-ProTM Warden Gloves made of hand-cut, split-grain Palomino leather and a ballistic lining of DuPont Kevlar felt. Unlike knitted or woven versions, Kevlar felt is tightly packed for maximum puncture resistance. Double stitched with Kevlar thread, with a loose fit for dexterity and emergency removal. Developed for the safe and gentle handling of dogs, cats, snakes, and small wild animals.

VP-WVP05L

Vet-ProTM Magnum Gloves provide superior puncture resistance and crushing protection with 400 stainless steel safety bars built into the hand, clinched on the back and front of the fingers, to disperse force and shield against penetration. Initially developed for handling primates, these gloves offer the greatest bite protection while still maintaining an ample amount of dexterity.

VP-WVP03L

Vet-ProTM Trapper Gloves 22" (Large only) These gloves are made of split-grain Palomino leather and are lined with Ballistic Dupont Kevlar felt for puncture resistance. Similar in design to the WARDEN glove. Has extra wide bell cuff with nylon take-up strap to be worn over heavy shirt and coat sleeves worn by trappers and field personnel.

VP-WVP01L

Vet-ProTM Forester Gloves were developed with steel safety mini-bars clinched to the back and front of hand portion of glove to provide the maximum in bite protection. The configuration of the Forester glove is very similar to the MAGNUM gloves with exception of many more mini-bars installed in the palm and finger areas. Cuff is double-thick Palomino leather.

VP-WVP06L

The **Standard Ketch-All Pole** is crafted from aircraft aluminum, designed for the humane handling of animals while affording maximum protection to the handler. Used by animal handlers and wildlife control professionals in all 50 States and the District of Columbia, as well as many foreign countries.

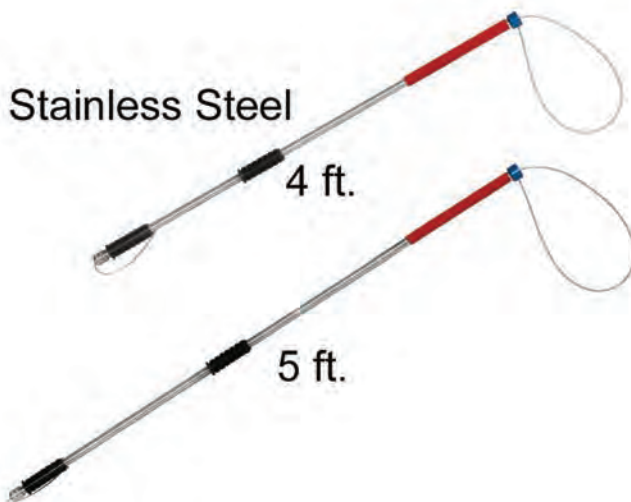

- A VP-N0901-28 (28")
- B VP-N0901-3 (3')
- C VP-N0901-4 (4')
- D VP-N0901-4-6 (Adjustable 4' to 6')
- E VP-N0901-5 (5')

Ketch & Release Pole provides the quality, durability, and dependability you've come to expect from Ketch-All, with the added functionality of an emergency quick-release head for instant release of captured animals. Comes in 3', 4' or 5' lengths.

- VP-N0902-3 (3')
- VP-N0902-4 (4')
- VP-N0902-5 (5')

Stainless Steel

Stainless Steel Ketch-All Pole is crafted of Stainless Steel for maximum durability. Designed for the humane handling of animals while affording maximum protection to the handler. Used by animal handlers & wildlife control professionals in all 50 States and the District of Columbia, as well as many foreign countries.

- VP-N090ISS2-4 (4')
- VP-N090ISS2-5 (5')

Animal graspers are excellent tools for grabbing animals out of difficult to reach hiding spots such as crawlspaces where putting your hands and face directly in front of the animal is not a safe option. The smoothly contoured grasper jaws are designed to restrain animals while minimizing discomfort and include attached jaw cushions for even greater protection. This grasper allows you to grab the animal and pull it towards you without jeopardizing your safety. Available in 28" or 38" lengths.

- VP-TLT310 (28")
- VP-TLT311 (38")

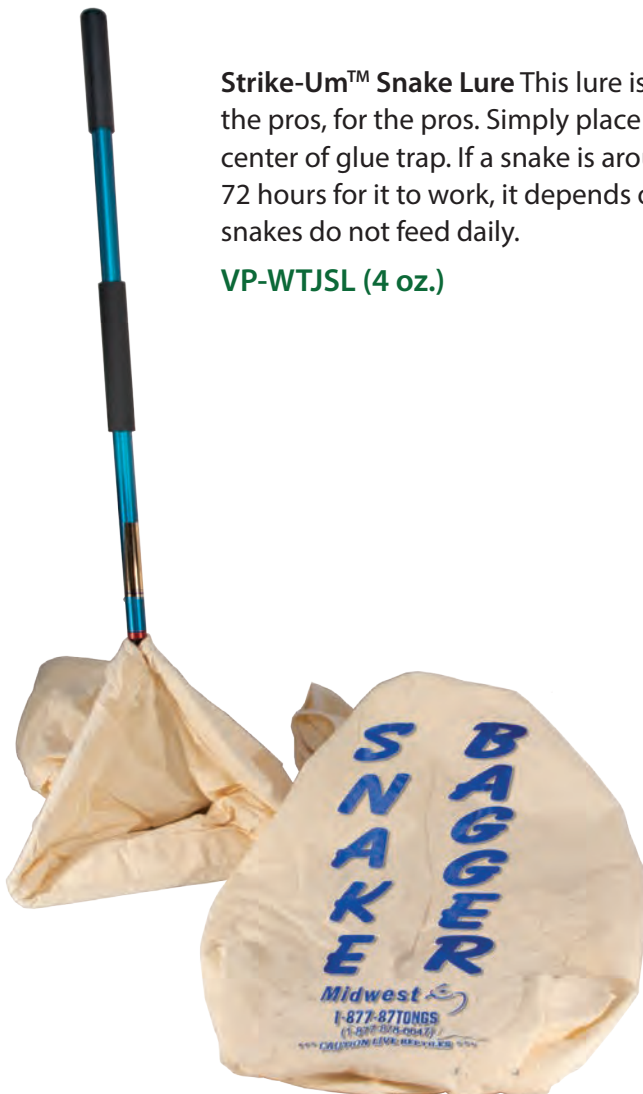

The original and patented **Snake Guard® Snake Trap** is improved with a wax coating for weather resistance! It's safe, effective, humane, and easy to use. Snakes can be caught and relocated without harming them or you, and the No-Touch Removal System eliminates the need to handle snakes. The Snake Guard® Snake Trap is made in the USA from completely biodegradable materials and is safe for the environment.

VP-N0105 (Single)

VP-N0105C (Case of 12)

Strike-Um™ Snake Lure This lure is the only snake lure there is, formulated by the pros, for the pros. Simply place 4-6 drops on sheep's wool or cotton ball in center of glue trap. If a snake is around, you will catch it. Usually can take 12 - 72 hours for it to work, it depends on the snake's feeding cycle. In most cases, snakes do not feed daily.

VP-WTJSL (4 oz.)

The **Snake Bagger** is a useful tool for capturing snakes in unwanted environments while protecting the handler and snake. One of a kind with dual bags for safety and the ability to have a backup when one bag is in use. 36" overall length and a 1 inner/1 outer designed with a sleeve on the bottom corner to work with restraining tubes or to step on to create tension in bag. Triangular aluminum frame made from anodized aircraft grade aluminum with strong comfortable handle. Features two safety snap locks on bag frame for quick release.

Note: Product includes one inner and one outer bag

VP- N100-SN-BG

Super Tongs Designed for the safe handling of snakes and other reptiles, these tongs can also act as an extra “hand” when capturing other critters. Our tongs have an anodized green aluminum shaft and a hand contoured pistol-grip style handle. These are the finest snake tongs on the market. This style has an inner-wall twice the thickness (.090") of the standard style (.045").

- VP-0801-25STD (25")
- VP-0801-40STD (40")
- VP-0801-52STD (52")
- VP-0801-60STD (60")
- VP-0801-72STD (72")

Deluxe Snake Tongs built to handle most any situation, from small to large snakes and reptiles. These tongs feature wide 2.5" cast aluminum jaws. The wider jaw distributes holding pressure over a larger area to prevent trauma to the animal and provides more holding power to the handler. Super Tube Option upgrades to a double thick .090 aluminum tube for greater durability. **Available in a variety of sizes.**

- VP-TLT415-24 (24")
- VP-TLT415-30 (30")
- VP-TLT415-36 (36")
- VP-TLT415-42 (42")
- VP-TLT415-48 (48")
- VP-TLT415-60 (60")
- VP-TLT415-72 (72")

Collapsible Snake Hook This hook extends from 29" to 47". It is made from our Aluminum Super Tube which gives it the strength to hold larger snake without bending. The length is quickly adjusted with an easy-to-turn collar that allows you to select the perfect length or collapse it for storage. This durable, heavy duty, yet light weight hook is built to last a lifetime.

VP-TLT320M

These **Professional Snake Tongs** are safe and easy to use. The handles are set at an easy angle instead of a hard ninety-degree angle found in other tongs. The jaws are made from warm polymer plastic, not cold steel or metal that can irritate a reptile. Internally, the tongs use a solid rod linkage instead of more unreliable cable. When not in use, the jaws can be locked in the closed position with a thumb switch on the handle. The jaws close tightly to making it easy to hold a small mouse tail for feeding. 42" length.

VP-SN-TG-42

Rattlers® Original Snake Chaps are constructed of abrasion-resistant 1000 Denier basketweave DuPont Cordura® nylon, with single-layer protection above the knee and double-layer protection below the knee. Water-resistant polyurethane coating. Adjustable side straps and a heavy-duty, non-corrosive zipper hold each chap securely in place. Briar- and thorn-proof. Color: Brown. Available in Regular or Husky.

VP-2274Z

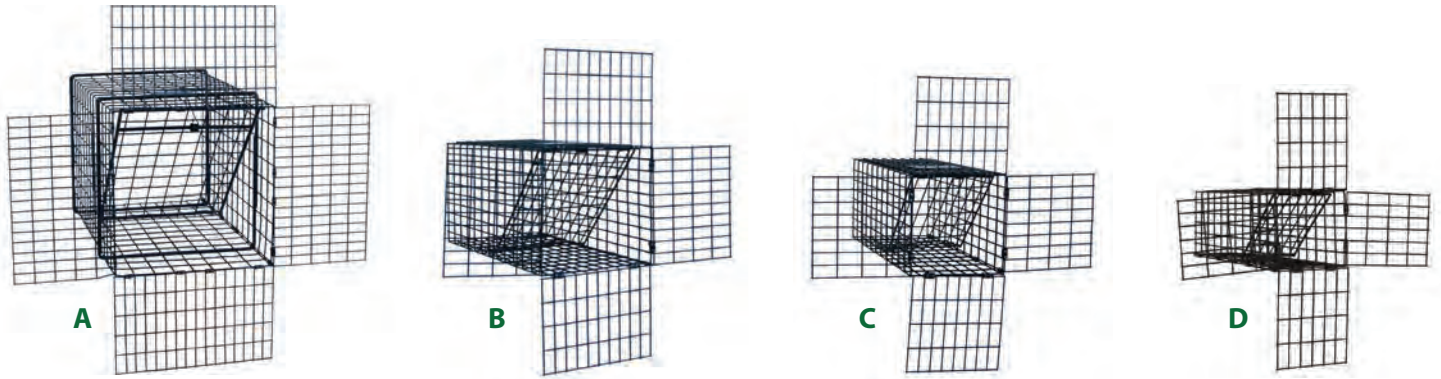

ScaleTech™ Snake Chaps The patented technology of these chaps overlaps the layers for complete protection from snakebites! The 1000 Denier basket-weave nylon fabric features a proprietary polyurethane coating process, making them water-resistant while also protecting you from briars. Other features include three adjustment straps and 14" zippers for pulling on over boots. Available in regular and husky sizes. Color: Green.

VP-2274X

These are an **Economical Wildlife Handling Glove** that provides protection and puncture resistance. The puncture resistant material on the cuff is pig split leather, 2 layers of leather and canvas. Pig split leather provides puncture resistance due to its naturally tight fibers. It's also used on the back of hand and palm patches (charcoal colored leather throughout the glove). 3 ply Kevlar thread is used in the stitching throughout the glove.

VP-WWHG-21

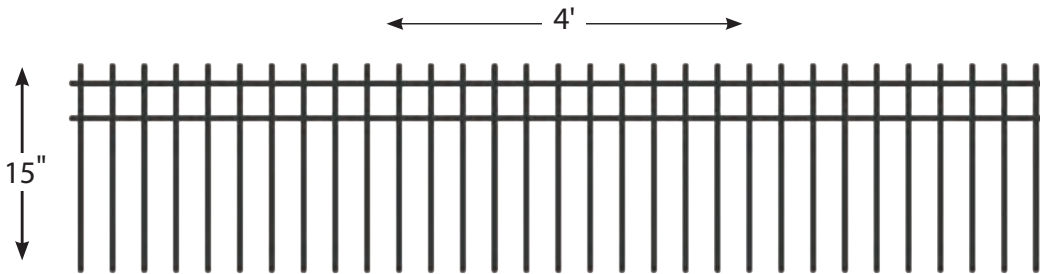

Our one-way door exclusion devices allow you to evict unwanted guests without having to trap them. Available in 4 sizes to provide the right tool for the right sized animal. This flush-mounted device is designed to mount easily and features a spring-loaded door, so animals can get out but not back in. Made with 1" x 1/2" mesh powder-coated to resist rust.

- A** X-Large for Raccoon, Opossum, Cat, Skunk (8"H x 8"W x 14"L) **VP-WEX8**
- B** Large for Gray Squirrel (5"H x 5"W x 12"L) **VP-WEX5**
- C** Medium for Gray Squirrel (4"H x 4"W x 11"L) **VP-WEX4**
- D** Small for Red or Flying Squirrel (3"H x 3"W x 10"L) **VP-WEX3**

DIG DEFENCE Animal Control

Dig Defence® is a below ground fence system that protects commercial and residential structures against invasive wildlife and keeps pets from digging out of yards.

VP-DDAC-Tool-C

DDAC (Dig Defence® Animal Control) Commercial Grade is an easy-to-install permanent barrier (underground fence) which replaces the back-breaking task of burying hardware cloth or repeated trapping. DDAC has many applications including installation around foundations, decks, sheds, electrical substations, zoos, barns, yards and ranches.

200' kit, with fifty 4-foot panels. Constructed of 4-gauge galvanized steel. VP-DDAC-CG-40

We strongly recommend the use of the Dig DeFence® Commercial Installation Tool VP-DDAC-Tool-C

Our **Raccoon Eviction** is a natural by-product of male raccoon, which is a predator to female raccoons during the birthing period. When placed in a den area, the female senses that a danger to her young is nearby, inspiring her to move the den location. More potent than others on the market, half an ounce is recommended per application.

1 oz: VP-N1115-1
4 oz: VP-N1115-4

“**VANISH**” is a raccoon eviction paste lure. This is a natural by-product of boar raccoon, which are predators to female raccoons during the birthing period. When placed in a den area, the female instinctively senses that a danger to her young is nearby. It has the consistency of a thick, creamy paste and has been formulated to stand up well in all weather conditions. Easy to handle, it will stay where it is placed. Available in E-Z Applicator .09 lbs. each (39 g) or 4 oz. glass jar. Tool.

Jar VP-WTJV (4 oz.)
EZ Applicator VP-WTJV-Tube

Fox Evictus™ is a natural glandular by-product of predators, which are threats to fox pups during the denning season. The adult fox senses that a danger to their young is nearby, inspiring them to move the den location and pups. Use 2 ounces per den site. Place in a perimeter around yard or den site. Scent mark at multiple sites like fence posts bases of trees. Shake before each use.

VP-WFEVIC

Our **Foam Gun Kit**, is all you need to get started in closed cell foaming. Great for sealing cracks and crevices that allow unwanted critters to enter structures. Our kit includes the green plastic molded carrying case, (1) 13" Pageris foam gun, (3) cans of Pur Black foam, (1) full size cleaner, (3) needle adapter with syringes, (1) 2' piece of flexible hose, and (5) pairs of nitrile gloves.

VP-N603C

Copper Mesh for rodent exclusions and rodent-proofing. Copper Mesh is tubular, laid flat (approx. 6" wide), and rolled for easy storage and use. It even works underwater for longer lasting muskrat control. Great when used in combination with closed cell foam.

VP-WLM01

PrevenChew™ 4" Wide Stainless-Steel Mesh is a great rodent excluder. Once you get them out, keep them out! When used in combination with closed-cell, expanding foam or a quality caulk or sealant, it makes rodent-proofing a home a snap. Great for filling gaps due to its crimped design or as barrier for protecting larger openings. Knitted in tubular sleeves.

VP-WSSM4

The **Guardian-2 Single Rotary Propane Cannon** sits on an tripod (included) and rotates approximately 90° with each blast. An additional benefit of the tripod is that it raises the cannon 5 feet above the ground resulting in better sound propagation and increased protection area.

VP-WGPSROT

Note: This cannon comes with a non-telescopic, fixed barrel resulting in consistent 120 decibel blasts. Product does not come with a propane cylinder.

The **GUARDIAN-2 Standard** operates on butane or propane gas allowing it to make sound detonations for the protection of crops by scaring off birds, wild boars, deer and other damaging animals. The detonations can be regulated to fire from every minute to every 30 minutes, and the sound intensity can be adjusted with its telescopic cannon barrel, ranging from 80 to 120 decibels. The area of protection is between 7 to 10 acres, depending on the type of crop, topography, and weather conditions.

The machine activates with a piezo-electric system, while the rest of the cannon is mechanical to ensure high reliability and minimize damage or potential problems. The whole machine is fully galvanized to withstand the weather.

VP-WGPSTD

Note: This unit comes with a telescopic barrel to vary sound intensity. (Propane cylinder not included)

Shore birds
(VP-Intmdr-R)

Starling
(VP-Intmdr-G)

Woodpecker
(VP-Intmdr)

The Intimidator is a professional grade visual bird deterrent that uses motion and bright flashing to scare away woodpeckers and other birds from unwanted areas. Woodpeckers can cause serious damage to homes and other buildings. The Intimidator is lightweight and needs very little air current to create a dynamic visual effect that frightens birds. It mounts easily to any wood surface with a single screw. Unit must be mounted to reflect flashes onto the side of the structure. Most structures will require multiple units to protect all sides.

The **AVIX Handheld 500** laser provides a highly effective tool for direct intervention to keep birds away. Birds perceive the Handheld's laser spot as an approaching physical danger. Once they perceive the laser spot, they fly away in search of safer ground and, in contrast to conventional methods of bird deterrence, there will be no habituation. After consistent use of the Handheld, birds will perceive the controlled area as unsafe and will not return. In ideal weather conditions, the laser has a range of up to 2500 meters.

- Bird Control Group dedicated years of research to develop the ultimate laser beam. This goal was achieved through the application of a combination of highly precise optics, filtering and light frequencies. The result is exceptional performance in bird repelling over long distances.
- Red Dot Sight makes operation over long distances more accurate and safer; the Handheld is equipped with a red dot sight. The sight makes it possible to accurately aim the Handheld at a desired target before activating the laser. Key Lock System prevents unauthorized use of the equipment, the Handheld is equipped with a key lock system.
- Rugged Design the Handheld has a robust design. The shockproof cover protects the laser from damage from falls and dust exposure. Therefore, the laser can be used in a wide variety of environments.

VP-BCG-AAM2

The **AVIX Autonomic Mark II** is a state-of-the-art fully automated bird repelling system, providing continuous bird repelling capability after a one-time configuration. The principle of repelling birds with a laser beam is inspired by nature. Birds perceive the approaching laser beam as a physical danger. It appeals to the survival instinct, causing the birds to fly away. The continuous presence of the moving laser beam keeps areas free of birds, 24 hours a day, 7 days a week. The laser bird repellent has proven to be effective over time without habituation. Bird Control Group dedicated years of research to develop the ultimate laser beam. This was accomplished by applying a combination of highly precise optics, filtering and light frequencies. The result is exceptional performance in bird repelling while maintaining eye safety for both humans and birds. Product comes with intuitive app-based software for easy and fast configuration via bluetooth. For more information, visit our page all about Laser Deterrents for Bird Control.

The Fogmaster Jr. is constructed of corrosion resistant materials. Twist the power head to detach the tank and pour in the solution. Another half twist and you're ready to go. A switch located on the handle to run. Adjust output size droplet, from a fine light fog to a coarse mist, with the rotary valve. This is a great sized fogger for smaller applications, (i.e., one room, garage, a crawl space, etc.)

VP-WFOG

The FOG® Electric Atomizer Sprayer assures coverage of very large areas (inside and out). Hudson® powered sprayers are perfect for spraying a wide variety of product with precise control to save time, labor, and chemical. For the homeowner or professional, powered sprayers from Hudson® can handle the toughest jobs and are the best way to control mosquitoes anywhere in the world.

VP-W99598

Deodorize, Disinfect, Sanitize, Virucide

Epoleon NnZ is a catalytic deodorizer that is nontoxic, non-hazardous, and non-corrosive. NnZ has no fragrance. Epoleon NnZ can react with pet odors, sweat odors, tobacco odors that are embedded in carpet and furniture, etc. It also reacts with raw garbage for indoor and outdoor applications, dead rodents, skunk smell, etc. NnZ can eliminate acidic, alkali, and neutral odors such as putrified oils. It also contains an emulsifier and surfactants for oil and has excellent cleaning power. 1/2 gallon.

VP-WNnZs

Epoleon N-100 - Pet urine odor and other animal related odor problems result from alkali odors (ammonia, Trimethylamine), and acidic odors (Hydrogen Sulfide, Methyl Mercaptan) emitted from urine and feces. When your pet releases urine, PH property of urine is alkali; however, after being exposed to air, it changes from alkali to acidic. These odors are not only bad for humans but also for your pets.

VP-WN100S

Epoleon PC-300 Odor Control Neutralizer will remove skunk odor, dead animal odor, pet urine odor, and dead rodent odor. It reacts not only with skunk and dead animal but also reacts with pet urine odor, mildew odors, sweat odors and tobacco odors that are embedded in carpets and upholstery. It reacts with raw garbage for indoor and outdoor applications as well. Epoleon is a deodorizer made from fine, organic chemicals and complex compounds, it is biodegradable, emulsifiable, and a dissolver and neutralizer of malodors. 32oz.

VP-WPC300

VP-WKHCG

Nisus DSV Disinfectant - This all-in-one solution is a powerful disinfectant that is highly effective against disease-causing bacteria. But it's also a sanitizer that can rid an area of germs and fungi that can cause sickness and mold. And it's a powerful virucide, capable of killing viruses.

VP-WDSV

STERI-FAB® is one of the most hardworking disinfectants and insecticides on the market. Perfect for cleaning up bird droppings, bat guano, and raccoon feces. Use it to wipe out lice, bed bugs, ticks, dust mites, bacteria, fungus, mold, mildew and viruses. Sterifab deodorizes and dries in 15 minutes and leaves no residue. No dilution is required. Will not eliminate roundworm. STERI-FAB® is the only product that is both a disinfectant and kills bedbugs. This product is registered in all 50 States.

Shipping

Free shipping on all orders over \$100.

We make every effort to process, pack and ship your order within 1 business day.

Shipping is via Standard Ground service with delivery in 1 to 5 days depending on the destination.

We also offer expedited shipping services for 3-Day, 2-Day or Next Day Air delivery and will provide expedited estimates upon request.

Damage Inspection & Claims: It's important that you inspect all of the packaging and items delivered immediately upon receipt. Although very rare, packaging and items may be damaged during shipment. If you find any damaged item(s), contact us immediately. You must keep damaged items and original packaging for refund or replacement. Discarding original packaging will void claim. We will coordinate the shippers claim process for any lost or damaged item(s).

Returns

Should you decide to return an item, please contact us 860-653-6943 for return authorization. Items must be returned unused and in their original packaging for refund or exchange. Returns for refund or exchange must be made within 30 days of purchase. A 20% restocking fee may be charged. Original shipping and handling charges are not refundable. (No returns/refunds on Baits & Lures)
