

PRODUCT

CROSSTRAINER™ 0-0-4

TURF PERFORMANCE AGENT

Like a workout for turf, CrossTrainer builds fitness from the first application, with cumulative benefits over time, elevating turf performance, even under intense stress. By improving plant and soil efficiency, it optimizes water use and supports a thriving root zone ecosystem, boosting photosynthesis.

✔ **NUTRITION** ✔ **BIOLOGY** ✔ **OSMOSIS**

HOW TO USE

CrossTrainer is an excellent addition to any nutritional spray and can be mixed with fungicides, PGRs, and liquid or soluble fertilizers. Start training your turf any time of year! Higher rates are recommended leading into stress, emerging from dormancy, or during recovery from damage.

INSIDE THE BOTTLE

GUARANTEED ANALYSIS

4.00%

Soluble Potash
(K₂O)

NON-PLANT FOOD INGREDIENTS

Polymeric stabilizers, sugars, amino acids

DERIVED FROM

TECHNOLOGY

Enhance leaf canopy protection with defense activators, antioxidants, and phytochemicals.

Activate the soil and root function with PowerSaccharides™, organic acids, and key enzymes.

PRODUCT APPLICATION RATES

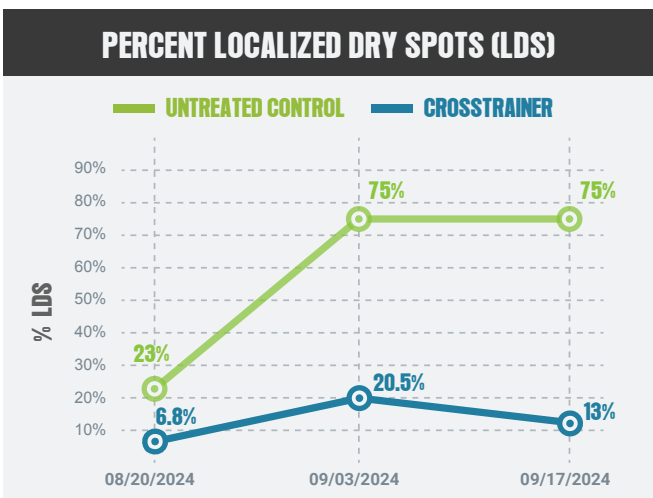

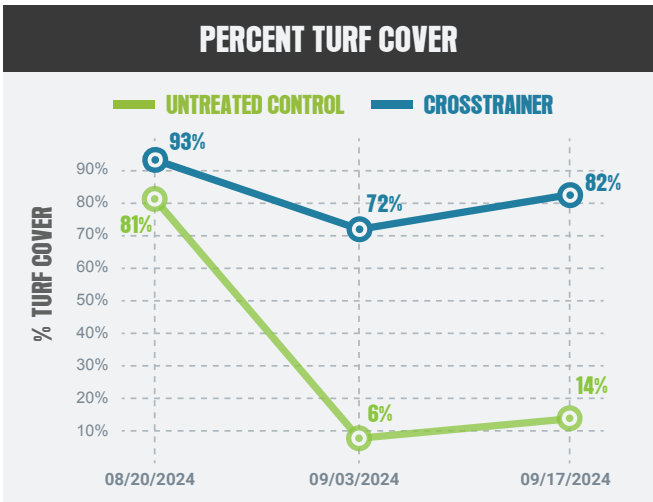

APPLICATION	USE RATES	FREQUENCY
Cool-season Turf	Apply 2 - 6 fl. oz. / 1,000 ft ² in 1 - 2 gallons of water	7 - 14 days
Warm-season Turf	Apply 2 - 6 fl. oz. / 1,000 ft ² in 1 - 2 gallons of water	7 - 14 days

JAR TEST

A standard jar test is always recommended when applying CrossTrainer with tank mix partners for the first time - especially phosphorous.

CROSSTRAINER™ 0-0-4

RESEARCH

In a 2024 study conducted at the University of Arkansas, CrossTrainer demonstrated outstanding turf quality with a marked reduction in localized dry spots (LDS). Over the season-long trial, CrossTrainer conditioned treated turf for enhanced resilience against drought stress, while boosting photosynthesis to promote higher plant fitness levels.

UNTREATED CONTROL

CROSSTRAINER

CrossTrainer applied at 4 fl. oz. / 1,000 ft² every 14 days.
