

2020 Heirloom Clones Estate Pinot Noir

The Vineyards: Heirloom clones of Pinot Noir are from the original plantings of grape-growing pioneers. Our Heirloom Clones Estate Pinot Noir comes from four different Estate sites - our Lindsay Paige, Ryan Spencer, Alfaro Family and Mary Katherine vineyards. The clones used are Calera, Mt. Eden, Pommard, Martini and Swan.

The Winemaking: 67% of the grapes were de-stemmed and 33% were left as whole clusters. Then they were placed into small open-topped fermenters. Fermentation began spontaneously. No punch downs were performed. To avoid over-extraction and to keep the cap moist during fermentation we performed rack-and-returns via gravity. After fermentation the wine was pressed off directly into French oak barrels where it underwent a natural malo-lactic fermentation. It was then aged for 10 months on its lees and bottled unfined and unfiltered.

The Wine: Deep ruby color, aromas of licorice on the nose, with flavors of cedar box, black olive, cranberry and anise on the palate. Finishes with nicely balanced tannins and bright acidity.

Technical Data:

Production	150 cases	Release Date	Spring 2022
Alcohol	13.5 % by vol.	Aging	10 months in French oak barrels
Bottle Size	750 ml	Suggested Retail	\$38
