Curatorial Note:

Artswitch2021 Exhibition: "Flower and Company" by Vincent Gréby

Simple. Happy. Appealing. Primary. Just some adjectives that one uses while glimpsing Vincent Gréby's art pieces for the first time. But a more detailed study of these minimalistic, playful representations of everyday life leads one to consider the complexities that lie just below the surface of these joyfully captured vignettes. These works of art are deliberately childlike, like those created by one who has embraced absurdity over worldly tribulations, to provide a peek into what it looks like to deliberately live life without complications. By the end of the visual experience, the simplistic has transcended into a complex work of art - defiant and elevated beyond constricting definitions and labels.

With flowers in various stages of bloom and emotion, in the company of everyday objects, Vincent Gréby has created a fantastical world that is grounded in living realism, but celebrated in magical joy and surrealism.

Vincent Gréby

FLOWER AND COMPANY

Vincent Greby studied painting at the Korean art studio "Sonamu" in France between 1997 and 2001. He wanted to move across the Indian Subcontinent after learning to paint in a Korean art studio. His paintings are focused on a conversation between warm color and naive form. Portraits and flowers dance to the beat of his soul in his artwork. He had exhibitions mainly in France, Nepal, Cambodia and South Korea. He has written two books in Nepal- 'Le nouveau Nepal ou le pari d'une utopie' and 'L'affaire des 16 piliers'.

Vincent Gréby's Flower and Company is part of Gallery of Creatives "ArtSwitch2021" series of Exhibitions

Gallery of Creatives

ArtSwitch2021 Exhibition

Gallery of Creatives is an art, photography and cultural establishment in Thamel, Kathmandu, focused on associating with Illustrators, Photographers and Mixed Genre Artists to provide a contemporary gallery space for them to exhibit their work. We also help artists stock their artwork, discuss their value and display it for longer periods of time at our space. While our Art Gallery is open to artists from Nepal and the International community and we are committed to promoting their work aesthetically and commercially, we are also working with a diverse group of entrepreneurs and awareness activists who want to use the gallery space to showcase their ideas and products.

Please visit the gallery for information about our services, annual programs and future exhibitions.
