Feng Shui | The Elements

Non-structural elements are the contents within a home, such as furniture and electronics. These are not fixed in place nor generally considered part of the house. If the house were to be turned upside down, the non-structural elements would be those that fall.

Please indicate the measurements of any existing non-structural elements in the room that take up floorspace and will remain as part of the redesign. Include photos of each of these items with your project inquiry submission.
