Non-structural elements are the contents within a home, such as furniture and electronics. These are not fixed in place nor generally considered part of the house. If the house were to be turned upside down, the non-structural elements would be those that fall.

Please indicate the measurements of any existing non-structural elements in the room that take up floorspace and will remain as part of the redesign. Include photos of each of these items with your project inquiry submission.

#### **Existing Elements**

ltem	Size	Height	Width	Depth
Bed frame	King	3'-2.5"	6'-4"	6'-8.5"
Television	43"	1'-10"	3'-2"	0'-1"

### **Existing Elements**

Comments	Would like a swivel mount to pivot the television for yoga			

Structural elements are fixed in place and considered part of the house, such as kitchen cabinets or a ceiling fan. These are the elements that, if removed, will generally cause damage to the structure.

Please check beside and provide some information about the structural elements that need included as part of the redesign. If needed, there is room at the bottom of page 18 to add structural elements not listed.

For existing structural elements, please include measurement information in the space provided as well as photos of each of these items with your project inquiry submission.

## **Interiors** The Next Steps

Once your questionnaire is submitted, please return to <u>jlanesmith.com/interiors-site</u> for a guide as to the next steps in the design process.

Check your inbox for an email from Adobe verifying your address. Once your email address is confirmed, you will receive a copy of your completed site questionnaire.

Collect the measurements of the room (or rooms) and any existing elements to be included in your design plan.

Photograph the existing elements listed on pages 4 and 5 of this questionnaire.

Submit your room measurements and photographs online at ilanesmith.com/interiors-site.

Once submitted, please allow up to 3 business days for confirmation by email that everything necessary to begin your design plan was received.

All correspondence is sent by email. Lest we land in your junk folder, please save jls@jlanesmith.com to your contacts list.

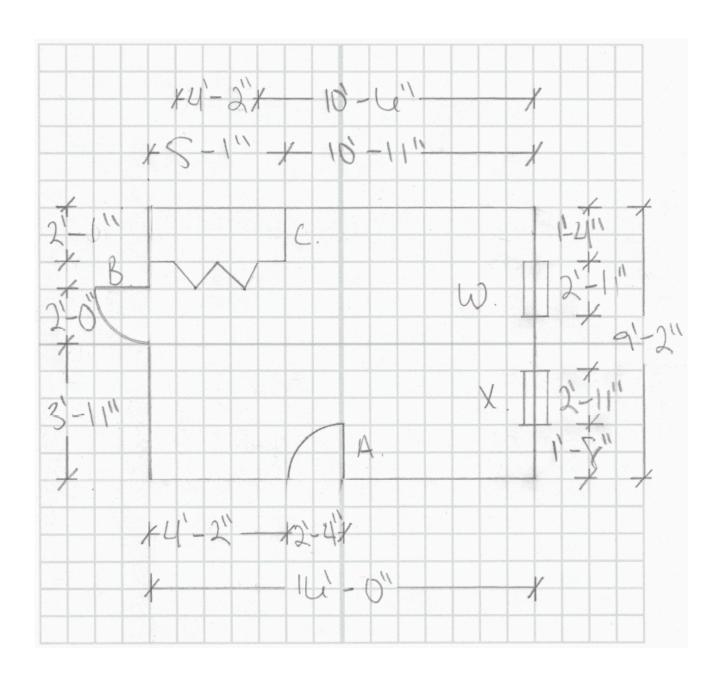

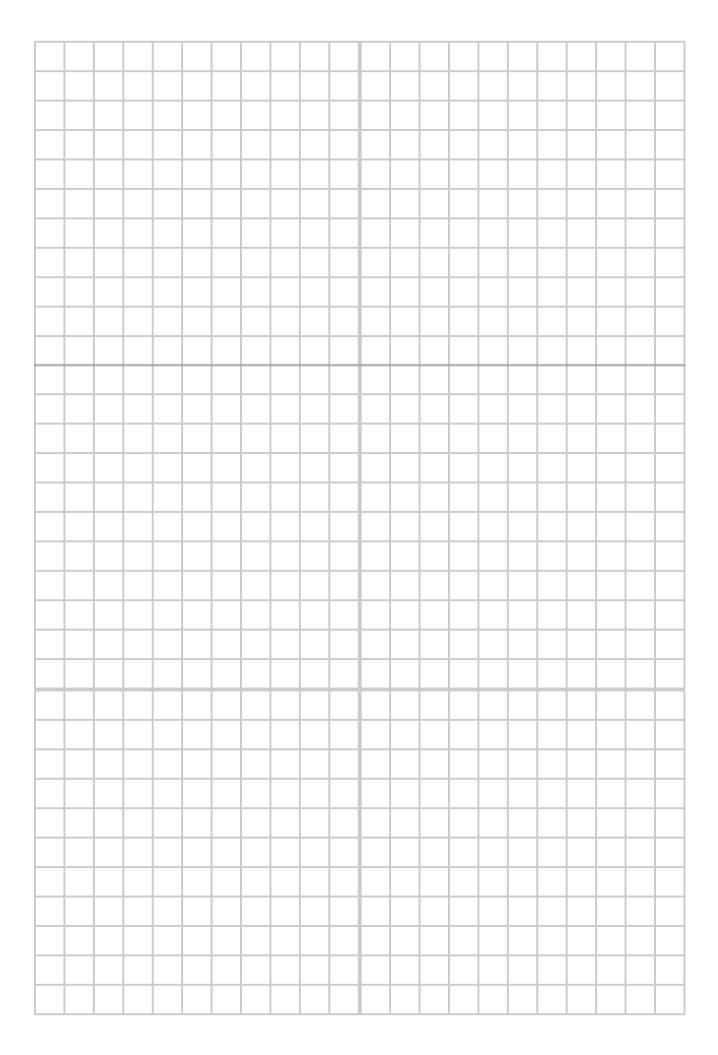

Interiors | The Rough Sketch

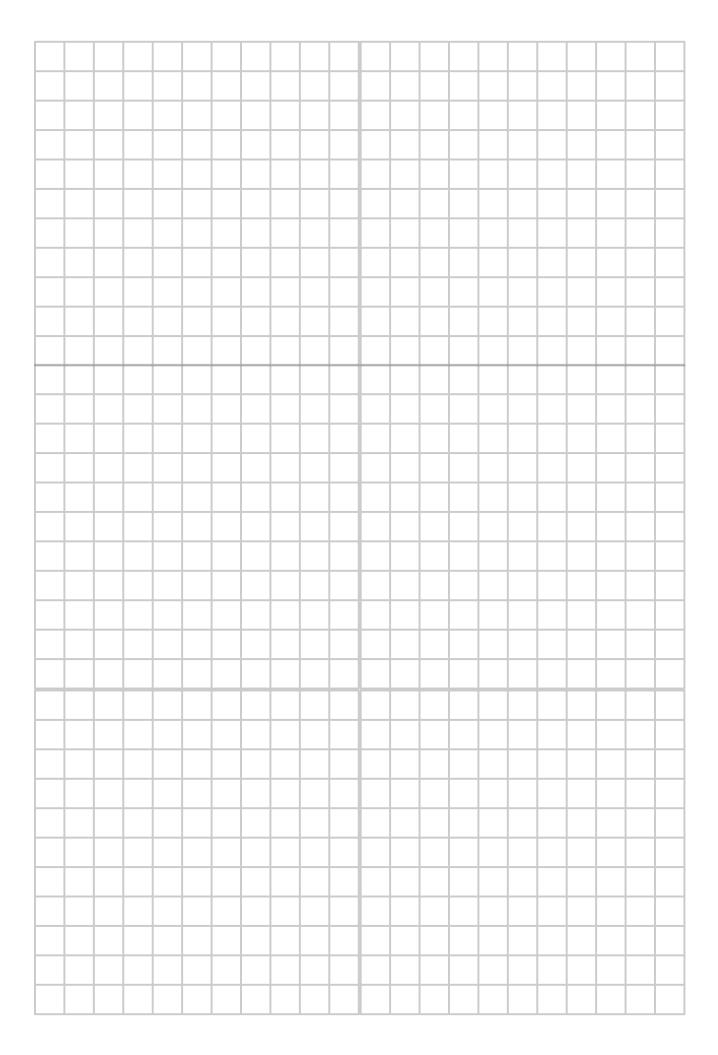

# **Interiors** The Rough Sketch

Draw an outline of the subject space and write in the measurements of the walls, wall breaks, and architectural features such as doors and windows. Additional pages may be attached to the submission should more space be needed.

For a step by step guide on collecting measurements and drawing a rough sketch, see **Interiors | The Rough Sketch (A Guide)** at <u>jlanesmith.com/interiors-rough-sketch</u>.
