With over 35 applicants, we welcomed six women from California, Washington and Minnesota to the McCloud River Outpost for our first Intro to Fly Fishing Clinic. Each of these women learned how to set up rods, basic knot tying, casting, and fish handling. This event was another huge success and we look forward to mentoring more women in 2024. Please check our Events and Education link on our website for future opportunities.

NOVEMBER 28TH

GIVING TUESDAY

Looking for an organization to support? We break down barriers to get more women on the water by providing gear, garb, and guidance. Our goal is to get over 150 women on the water in 2024 and we can't do it with you!

In our first year, we found that everyone has a story and how they were led to fly fishing. Not only does fly fishing promote physical and mental health, but also a sense of community and empowerment. To make a tax-deductible donation, please go to our website or Venmo @risingtothefly.
