

Risk Assessments

There are 7 Control Measures

Control stages for Driving Lessons COVID-19

1. Communicating with the client before the lesson
2. Preparing the car
3. Face to face meeting before the client enters the car
4. Entering the vehicle
5. The driving lesson itself
6. After the lesson
7. A follow up with the pupil

Communicating before the lesson.

- The instructor/Student who has had any symptoms of the virus within the last 7 days or has been in contact with someone who has within the last 14 days, will not give lessons to clients.
- A Text/Call before the lesson will be done to see if the student has any symptoms or been in contact with anyone with symptoms.
- The Student needs to wash hands for at least 20 seconds before leaving the house.
- Both Student & Instructor will wear suitable clothing covering arms & legs, also as the car maybe cooler/hotter due to open windows.
- Both Instructor/Student will consider using Gov tracing app when available.

Preparing the car

- Before each lesson and after the lesson the car will be cleaned down inside & out using anti bac/viral cleaner or disinfectant.
- Instructors will wash or sanitise hands as often as possible & will not enter a clients house to do so.
- A Disposable seat cover will be used for the duration of the lesson & will only be used for one student at a time.
- A supply of bin bags will be kept in the car for tissues/wipes etc & disposed of using Gov guidelines.
- A supply of gloves & masks will be kept in car to be used if required the cost to the student if not supplying their own may vary depending on the market prices & will be disposed of using Gov guidelines.

Face to face meeting

- The Instructor will Meet the student outside the before the lesson.
- The Instructor will not shake hands & will assess the student is well enough to continue if symptoms occur during lesson it will be finished immediately until they are fully recovered a Note of the date will be documented.
- The Instructor will check if the student has washed their hands.
- The Instructor will ensure to the pupil the car has been sanitised.
- A temperature check will be done using a contactless thermometer.

Entering the vehicle

- Please put your mask on & If wearing gloves (optional) put them on just before entering the car, take off directly after exiting your hands still need to be washed when you have finished your.

The driving lesson itself

- Wherever possibly the Instructor will give notes digitally.
- The Instructor will avoid giving face to face discussions & will face forward as the 2 metre distance cannot be a-heard to.
- Car windows/roof will be opened for ventilation Beware this may cause more noise.
- We will Avoid using air-con were possible.
- Parents, guardians or friends will not sit in the car at anytime
- Where possible we will avoid handling cash & use electronic payments/receipts.
- It Is the responsibility of the student & Instructor to inform before the next lesson if they are unwell or have been in contact with someone unwell.

After the lesson

- Wash clothes or change them after your Lesson.
- Take a shower if possible.
- Follow Government guide lines on washing your hands.
- Be mindful of how the car is being used as a Business & dose have a number of students using the car on a day to day basis but note the cleaning of the car is paramount between Lessons.

Follow up with the Student

- In-between lessons call/text if you have had any symptoms of the virus within the last 7 days, if so the lesson must be cancelled.
- Check if they have been in contact with anyone that is showing symptoms or has been doing so within the last 14 days & the lesson must be cancelled.

People At High Risk From Coronavirus Include People Who:

- Have had an organ transplant.
- Are having chemotherapy or antibody treatment for cancer, including immunotherapy.
- Are having an intense course of radiotherapy (radical radiotherapy) for lung cancer.
- Are having targeted cancer treatments that can affect the immune system (such as protein kinase inhibitors or PARP inhibitors)
