

PHYSICAL OR CHEMICAL HAZARDS:

Combustible. Do not use or store near heat or open flame. Minimal corrosion effects may occur with natural rubber and soft iron products. Stainless steels, plastics and polymers exhibit no corrosive effects. Never bring mixture in contact with other sanitizers, cleaners or organic substances. This product is not flammable or explosive. Read Entire Label and Supplemental Pamphlet for Complete Directions and Additional Precautionary Statements

STORAGE AND DISPOSAL

TRUSEPTA (Part A)

Do not contaminate water, food, or feed by storage and disposal. Pesticide Storage: Store in a dry, cool area and away from direct sunlight. Do not double stack pallets. Use first in, first out storage system. Pesticide Disposal: To avoid wastes, use all material in this container by application according to label directions. If wastes cannot be avoided, offer remaining product to a waste disposal facility or pesticide disposal program (often such programs are run by state or local governments or by industry). Container Handling and Disposal: Nonrefillable container. Do not reuse or refill this container. Clean container promptly after emptying. Dispose of container into an approved trash receptacle. Offer for recycling if available or reconditioning if appropriate.

Mixed solution can be used as a disinfectant for eight (8) days

TRUSEPTA is a two-part system and when Part A and Part B are combined, creates an effective Bactericide, Cleans, Disinfectants & Deodorizes in one step

Pharmaceutical Manufacturing Applications: Mixed TRUSEPTA is for daily use in the cleaning and disinfection of hard, nonporous surfaces in pharmaceutical manufacturing, production, compounding and research facilities, including all ISO 5, ISO 6, ISO 7 and ISO 8 areas, clean rooms, floors, walls, ceilings, equipment, stainless steel, glass, hard nonporous plastics, aluminum, Formica, polycarbonates used for barrier systems, vinyl flooring, transfer carts, hoods, bench tops, drawers, cabinets and other hard nonporous surfaces and equipment listed on this label.

- Mixed Products are Not a Skin Sensitizer
- Does Not Contain Bleach
- Pre-cleaning not required
- Meets AOAC Use-Dilution Test Standards for Pharmaceutical Use Cleaner & Disinfectant on hard, non-porous surfaces
- One-Step Cleaner and Disinfectant for Pharmaceutical Use
- Broad Spectrum Pharmaceutical Manufacturing Use Disinfectant on hard, non-porous surfaces
- Kills Odor-Causing Bacteria
- Prolonged or Frequent Repeated Skin Contact with Mixed products will Not Cause Allergic Reaction

DIRECTIONS FOR USE (Part A must be Mixed with Part B. There are no standalone claims) *It is a violation of Federal law to use the product in a manner inconsistent with its labeling.*

MIXING DIRECTIONS FOR ACTIVATION TRUSEPTA (Part A) is formulated as one component of a two-part system and therefore must not be used alone as a disinfectant without activating. Activate TRUSEPTA prior to use by pouring the entire contents of the TRUSEPTA Activator (Part B) small container (red label) into the TRUSEPTA (Part A) large container as instructed below:

TOTAL MIXED SOLUTION	109.08 fl. oz.
TRUSEPTA Part A	108.00 fl. oz.
TRUSEPTA Part B	1.08 fl. oz.

1. Using appropriate personal protective equipment (PPE), remove the cap on the TRUSEPTA (Part A) large container to expose the opening; 2. Obtain the TRUSEPTA Activator (Part B) small container (red label) and remove the child protective cap. CAREFULLY pour the entire contents of the TRUSEPTA Activator (Part B) small container (red label) into Part A large container. 3. Replace cap on the empty TRUSEPTA Activator (Part B) small container (red label) and discard as directed; 4. Replace cap on the TRUSEPTA (Part A) large container and shake or mix for approximately 15 seconds to combine the solution. TRUSEPTA Mixed Solution is now Ready-to-Use as directed. 5. Mark the activation date on the product use container using a permanent marker. Once Part A and Part B are Mixed, the Mixed solution can be used as a disinfectant for eight (8) days. Dispose of any Solution that has exceeded this timeframe post activation.

GENERAL CLEANING & DEODORIZING DIRECTIONS Mixed TRUSEPTA is for use in general cleaning and deodorizing. Apply a generous amount of TRUSEPTA, the Mixed TRUSEPTA solution, to soiled area using a cloth, mop, sponge, brush or mechanical coarse spray device as needed. Wipe clean or allow to air dry.

DISINFECTION DIRECTIONS Mixed TRUSEPTA is for use in disinfecting hard, nonporous surfaces to kill the following pathogens: Staphylococcus aureus (ATCC 6538), Pseudomonas aeruginosa (ATCC 15442), Salmonella enterica (ATCC 10708). **TO CLEAN, DISINFECT, AND DEODORIZE** Apply Mixed TRUSEPTA using a cloth, mop, sponge or mechanical coarse spray device or by total immersion until the surface is thoroughly wet. Treated surfaces must remain wet for 5 minutes. Do not rinse. Allow to air dry. Gross soil must be removed prior to disinfecting.
