Sierra Pacific application instructions For tow risks

We appreciate the opportunity to quote your risk. Sierra Pacific has specialized in towing risks for the last 10 years. We have access to over 90% of all written towing policies in California. The following is what we'll need to shop your risk to the 15 commercial auto carriers we represent.

Commercial auto application

This is the base application required to be completed. Include all driver license numbers, date of births, if they are full or part time, position and years experience. For vehicles include GVWs, stated values and VINs. Do you have garage operations? Perform roadside assistance? Haul salvage autos? Haul anything other than autos? Do you pickup disabled vehicles in residential neighborhoods? Who do you have contracts with? Motor clubs? Police departments? Auto shops? How many autos max can you tow at one time? Do you have GPS in your trucks for recovery if its stolen? Use air bags to flips over turned vehicles? Or allow passengers in your trucks when towing? These are all important underwriting Qs carriers need to evaluate your risk factors to determine eligibility and premium.

Loss runs request form

As of today, Progressive is the only carrier who will offer a quote without loss runs. Therefore we will need up to 4 years of loss runs to quote with any other carrier. Included is a request form which allows us to get them for you. If you already have currently valued loss runs, skip this page.

Garage package application

If you need garage liability or garage keepers, we need this application completed. Are you 24 hours? Do you perform lien sales? Do you have a central alarm to linked to a service? Do you have dogs, and if so, what breed? What's the maximum number of vehicles can you store indoors and outdoors? Whats the average number for both? How does your revenue percentage breakdown? All towing? Do you earn revenue from impound? Or roadside assistance? Do you earn revenue from garage operations like auto repair, parts or tire sales? Give a percentage for each for a total of 100%. Do you need both garage liability and garage keepers? What limit for garage keepers? What's the max value for any one vehicle you store? What's the average? Do you need coverage for your business personal property?

Commercial auto schedules

If you have more than 3 drivers or vehicles, you'll need additional room. We provide a schedule for you or we'll take any list you have that has all info we need explained above.

Certificate of insurance and follow up Qs

In addition to the applications we provide, a current certificate of insurance is extremely helpful to confirm we are matching your current coverages and limits. We may also need additional answers based on your responses to the underwriting Qs.

If you have Qs please call, text or email me at 707.318.6807 or jc@sierrapacificagency.com.

Thank you for the opportunity, JC Bautista
