

AUTO20AAD

Touch Free 1000ml Liquid/Sanitiser Soap Dispenser

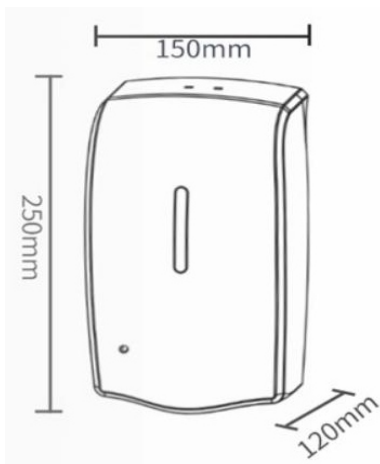

Product Features:

- Dispenses liquid/sanitiser soap (0.6ml Shot size)
- Suitable for most soaps and gels on the market
- Viewing window to check soap volume
- Drip tray included
- Branding available
- ABS plastic
- Available in liquid, foam or spray

The new 1 Ltr auto soap dispenser is a neat, simple solution where sanitising is paramount. With the infrared sensor soap is dispensed automatically avoiding hand touch and any potential cross contamination. Dispensing 0.6ml liquid per use is the perfect dosage of hand sanitiser for whole hand coverage.

The unit operates either with x4 C sized batteries (Not included) or can be connected to the mains using a DC plug (Not included). This unit can be wall mounted or used free standing when used with our floor stand (FS003) which is pictured below. This contains all the relative screw holes for an easy install.

Product Dimensions:

Unit in situ with floor stand (FS003):
