The ECOMINI chemical dosing system is a push-operated pump designed to deliver detergent directly from a product container into a commercial kitchen sink. It features a fixed 30ml dose and a 125mm non-drip aluminium/stainless steel outlet spout. A longer 300mm spout is also available.

Its small shape combined with its great efficiency make the ECOMINI chemical dosing system the ideal partner for busy kitchens looking to cut costs and wastes.

Height: 200mm Width: 110mm Depth: 120mm Weight: 0.55Kg
