

SHELDRIK WILDLIFE TRUST

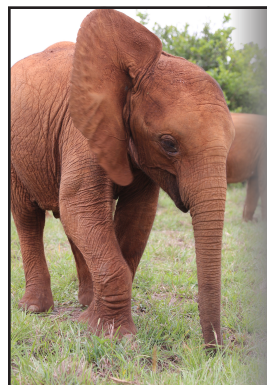

Sheldrick Wildlife Trust is dedicated to the protection and preservation of Kenya's wildlife and habitats. This is accomplished through six key conservation programs whose air and ground teams work in tandem to carry out the Trust's mission. Best known for the successful rescue and wild reintegration of orphaned elephants within the Greater Tsavo Conservation Area. Working in collaboration with the Kenya Wildlife Service, the herds are kept safe and given the future they deserve.

Milestones:

- **1954** – First orphaned elephant rescued & Voi Reintegration Unit built
- **1977** – Trust founded in honor of David Sheldrick's conservation work
- **1987** – Nairobi Nursery built
- **1989** – First orphans raised at the nursery, relocated to Voi
- **2000** – First Anti-Poaching Team launched
- **2004** – Ithumba Reintegration Unit built
- **2006** – First Mobile Vet Unit formed
- **2008** – Aerial Surveillance Unit launched
- **2014** – Umani Springs Reintegration Unit built
- **2016** – Canine Unit launched
- **2017** – Meru Rhino Sanctuary expanded by double

Sheldrick Wildlife Trust Conservation Programs:

- 🐘 **Orphans' Project** – Over 235 orphaned elephants raised through the Nairobi Nursery, with over 150 successfully reintegrated to living wild lives.
- 🐘 **Anti-Poaching Teams** – 12 fully mobile ground teams and one canine unit protect wildlife from illegal activities.
- 🐘 **MobileVetTeams** – 5 medical teams treat hundreds of wildlife each year.
- 🐘 **Aerial Surveillance** – 5 aircraft and two helicopters safeguard wildlife from the air and provide vital support to ground teams.
- 🐘 **Saving Habitats Initiatives** – Hundreds of miles of unique and endangered wild lands sustainably managed and protected.
- 🐘 **Community Outreach Projects** – Thousands of Kenyan students taught about conservation each year.

Other Ways to Support:

- Visit our website dswt.org
- Gift in honor/in memory
- Ask about matched giving
- Ban ivory in your state
- Follow us on social media

FOSTER AN ORPHAN

The milk-dependent elephants rescued by the Sheldrick Wildlife Trust may rely upon the Keepers for up to 10 years before they choose to return to the wild. Each elephant requires a stockade, the care of specialist Keepers who are with the orphans 24 hours a day, milk formula, supplemental foods, medicines, and veterinary treatment as necessary.

You can become a part of the herd by fostering a baby elephant for a minimum donation of **\$50 a year**. As a foster parent you'll receive:

- 🐘 A personalized certificate
- 🐘 Monthly email updates of your elephant
- 🐘 Digital watercolor by Angela Sheldrick, and more
