who know internet dummies and pop culture connections are especially useful because some problems are connections to movies, songs, or Dummy that the game developer thought was funny in 2006 and 2007. 5. Write answers and incorrect estimates. If you want to guess, write down the answer you guess before clicking. Remove it if it was wrong and covered it if I was right. If you lose all your life and have to restart the game (and it's a miracle if you don't), you'd be happy to write down your latest estimates so you have fewer options next time. Advertise 1 uses a mouse or touchscreen. Some problems require extreme precision and time using a cursor or touch screen. If you are using a laptop, add a mouse buffer instead of relying on it. 2 Never ask a question. The game allows you to earn a "release" that can be used to skip questions if you remain blocked, but you don't try! You cannot win the game unless all seven editions exist (last question). 3 Writing Code 50. Questions. The list of numbers is written in the 50th question. Write down these numbers and be ready to record them while answering 108 questions. Advertisement 1 2 3 Get help with the impossible quiz book. Once again your friend is the impossible quiz. This game doesn't have many guides on how to predict, but you may find another one if you look onlineYou may also need to move the mouse outside the game window in order to place a puzzle on your computer.
