- PREET Japan
- PREET South Korea
- PREET North America & Canada
- PREET Australia & South East Asia
- PREET Asia Pacific
- PREET Europe & United Kingdom
- PREET Mexico

Gallium is one of the leading partners for design, engineering and manufacturing of Tube Mill and other equipment from India and abroad for the Steel Industry.

Gallium was established in 1985 by Late Mr. A K Dutta (Ex Tata) with technical collaboration with Kusakabe Japan as its Principle technical partner & Technology transfer to India had been manufacturing Tube mill related equipment also for various American & European Tube mill Manufacturers under NDA as per their design & Technology transfer since 1992. The company is now looking ahead to the next generation. Rajesh Meena, a Mechanical Engineer with experience in the Equipment Industry in General and Tube Industry in particular, is being identified as the 'Gen-Next' leader of Gallium. Coming from a background of Machine Building to Production of Pipes, Mr. Meena intends to bring in a strong Techno-economic perception to the equipment made and supplied in terms of the need of the buyer.

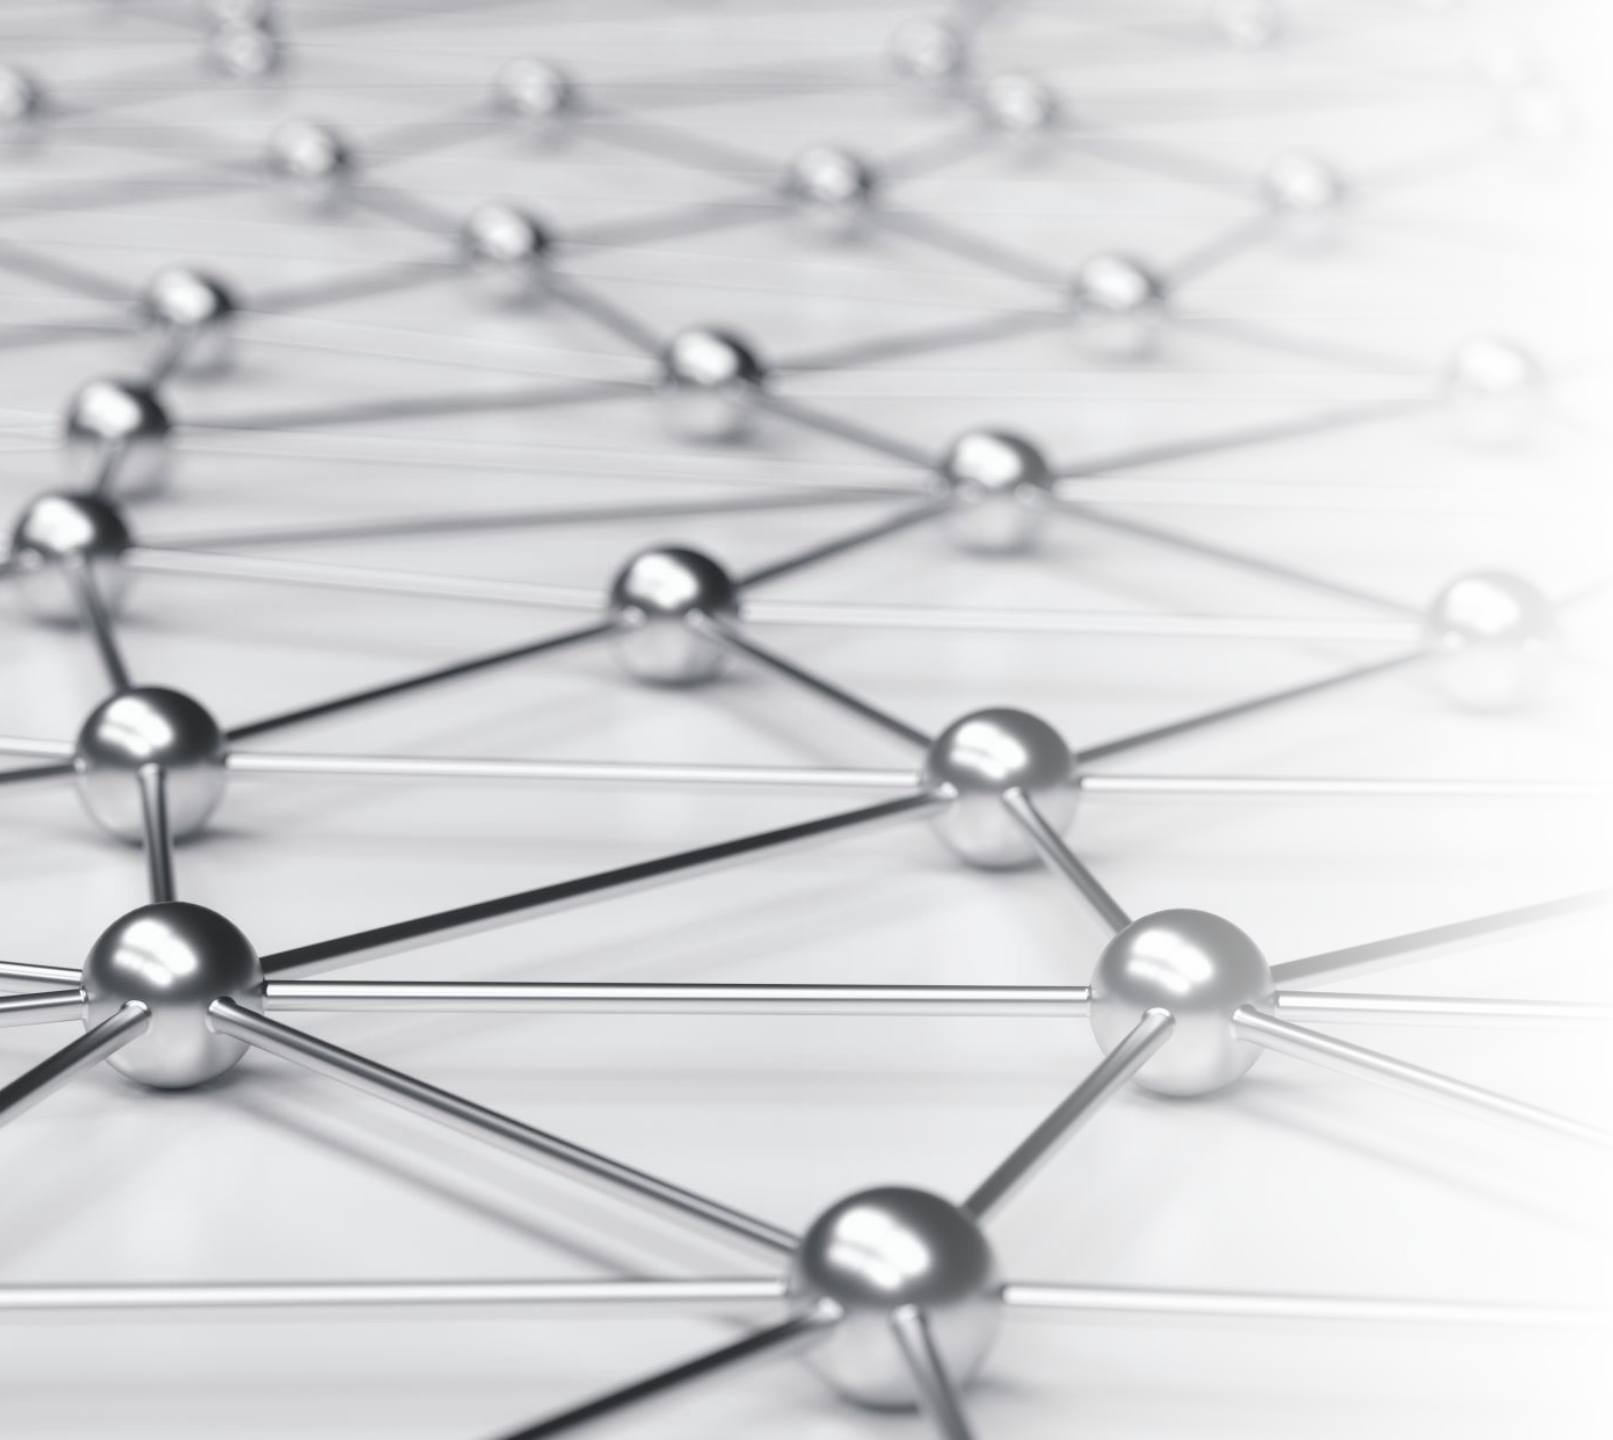

With Technical Collaborations of world renowned companies like Bronx Taylor Wilson, T&H Lemont, Voestalpine, Yoder, George Mitchel U.K., GUILD International USA etc. to manufacture the Equipment with the latest Technology available with them. Gallium is pioneer name in suppliers of Tube Mills, Tube Finishing Equipment including Cold Drawing Plants and other Coil Strip Processing Lines like HR/CR Slitting Lines and Roll Forming Lines along with tooling etc. and other customized solutions to Steel Industry. Gallium has proven the reliability of its manufactured equipment by already supplying over 500 machines including more than 5000 equipment to nearly 70 countries covering the globe including developed countries like UK, USA, Germany, Australia, Austria, Greece, Turkey, Egypt, Poland, Japan, China, Brazil, Taiwan, Thailand, Malaysia, U.A.E and Iran etc.

Gallium Worldwide Manufacturing Unit, Technology Development and Design Centre:

- GALLIUM EQUIPMENT PVT. LTD., INDIA
- GALLIUM EUROPE S.R.L, ITALY
- GALLIUM MENASA, EGYPT
- MENASA INTERNATIONAL (FZE), UAE
- GALLIUM SHANGHAI DESIGN & DEVELOPMENT CENTER, CHINA
- GALLIUM DO BRASIL LTDA, BRASIL
- GALLIUM RUSCHEL GROUP, RUSSIA & CIS
- GALLIUM ADARSH ENGINEERING, INDIA
- GALLIUM EDDY AUTOMATION, INDIA
- GALLIUM TOOLS PVT. LTD., INDIA

INTRODUCTION OF GALLIUM GROUP

PREET and Gallium Group are two organizations decide to join forces to leverage each other's strengths. It's essential for both organizations to clearly define the objectives, scope, products list, mutual growth and roles within the partnership.

OBJECTIVE OF ASSOCIATION

- PREET and Gallium are with different areas of expertise can come together to create a more comprehensive solution.
- PREET and Gallium can share resources, such as technology, facilities, or personnel, to reduce costs and increase efficiency. This collaboration allows each company to benefit from the other's strengths.
- If one group has received a partnering group field product or equipment requirement in market will share with the partnering group company. If time / project demands with MUTUAL UNDERSTANDING between PREET and Gallium can do the project manufacturing and execution jointly in PREET Gallium Industries Pvt. Ltd.
- To succeed in the global market, a group must conduct market research, establish distribution channels, and adhere to quality standards.
- All Products line manufactured and installed in PREET Gallium Plant, shall export for 2 years to build references in International market and to reveal presence of PREET Gallium Group association only.
- Once we have built enormous exception in international market after that will capture Indian market without any obstacle on premium cost.

SCOPE OF PREET Gallium Association

PREET

❖ Manufacturing

- ✓ Product manufacturing will be done in Preet Gallium Plant
- ✓ Joint Manufacturing can also be planned in different plant of PREET and Gallium.

GALLIUM

- Design
- Technology
- Marketing
- Installation
- Customer Service

PRODUCT LIST

FLAT PRODUCTS

SEAMLESS PLANT

EPS (ZERO ACID LINES)

AVIATION INDUSTRY

AEROSPACE

PRESS BRAKE TRANSMISSION AND POLE

DEFENCE

MUTUAL GROWTH WITH ASSOCIATION

- ❖ Explore opportunities for entering new markets or expanding existing ones.
- ❖ Develop strategic partnerships to increase market share.
- ❖ Sharing costs for projects, infrastructure, or marketing efforts can result in significant cost savings for both groups.
- ❖ Association can enhance the brand image of both groups. Associating with a reputable partner can add credibility and trustworthiness to each group's brand.
- ❖ By diversifying their partnerships, companies can mitigate risks associated with market fluctuations, technological changes, or other challenges.
- ❖ Collaborating allows groups to take on larger projects or enter new markets that might be challenging to pursue individually.
- ❖ When groups share similar goals and values, it fosters a positive and collaborative working environment, which is crucial for a successful association.
- ❖ Embrace change and encourage a culture of innovation within the association.
- ❖ Collaborate on marketing and promotional activities that showcase the collective strengths of the association.
- ❖ Leverage joint marketing efforts to enhance visibility and credibility for all involved.
- ❖ Develop sustainable financial models that benefit both the association and its member groups.
- ❖ Encourage experimentation and creative problem-solving to address evolving challenges.

By actively promoting these principles, an association can create an ecosystem where both the groups and its member groups experience growth, development, and shared success. This collaborative approach contributes to the overall strength and sustainability of the association and its constituent parts.
