AUTHOR CONNECT 2.0

AUTHOR CONNECT 2.0:

Your car is always under control

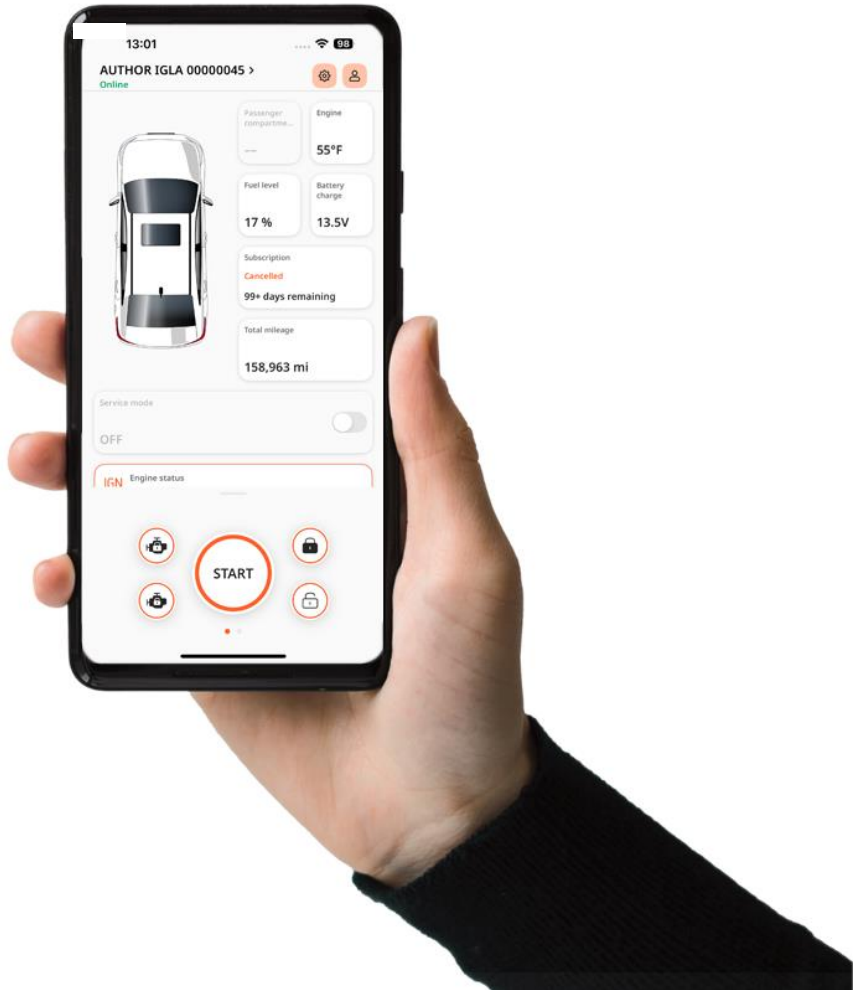
The **AUTHOR CONNECT 2.0** app is a user-friendly and reliable tool to manage anti-theft, security and telematic features via your smartphone

Smart technologies by AUTHOR

The **AUTHOR CAN DIALOG** technology and cloud infrastructure enable the **AUTHOR CONNECT 2.0** app to expand your control and monitoring capabilities

The app is compatible with **AUTHOR COMPASS** and **AUTHOR TELE COMPASS 2**

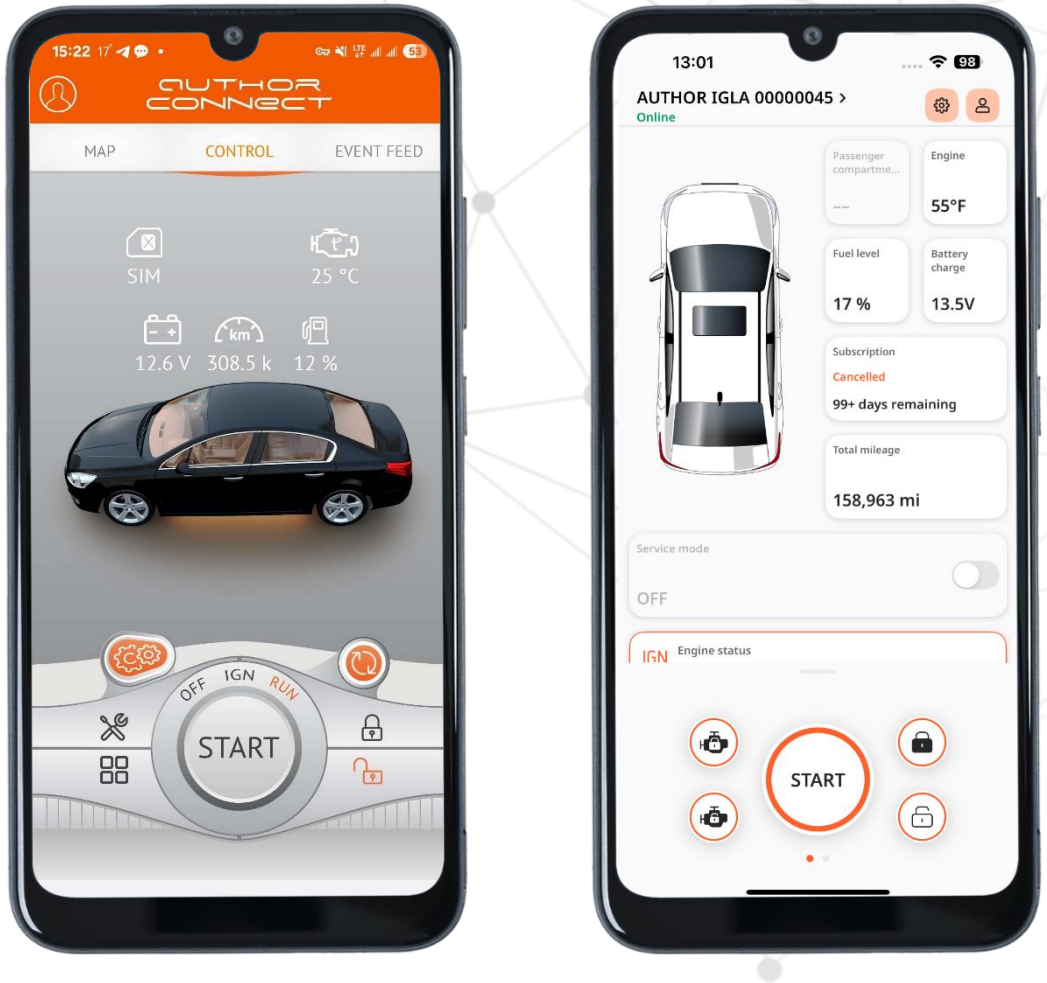
Together with **AUTHOR IGLA**, **ALARM**, and **AUTOSTART**, it provides full functionality of the control and monitoring system



NEW VERSION OF AUTHOR CONNECT

Even faster and more user-friendly!

- New and sophisticated design
- More notifications
- Higher performance

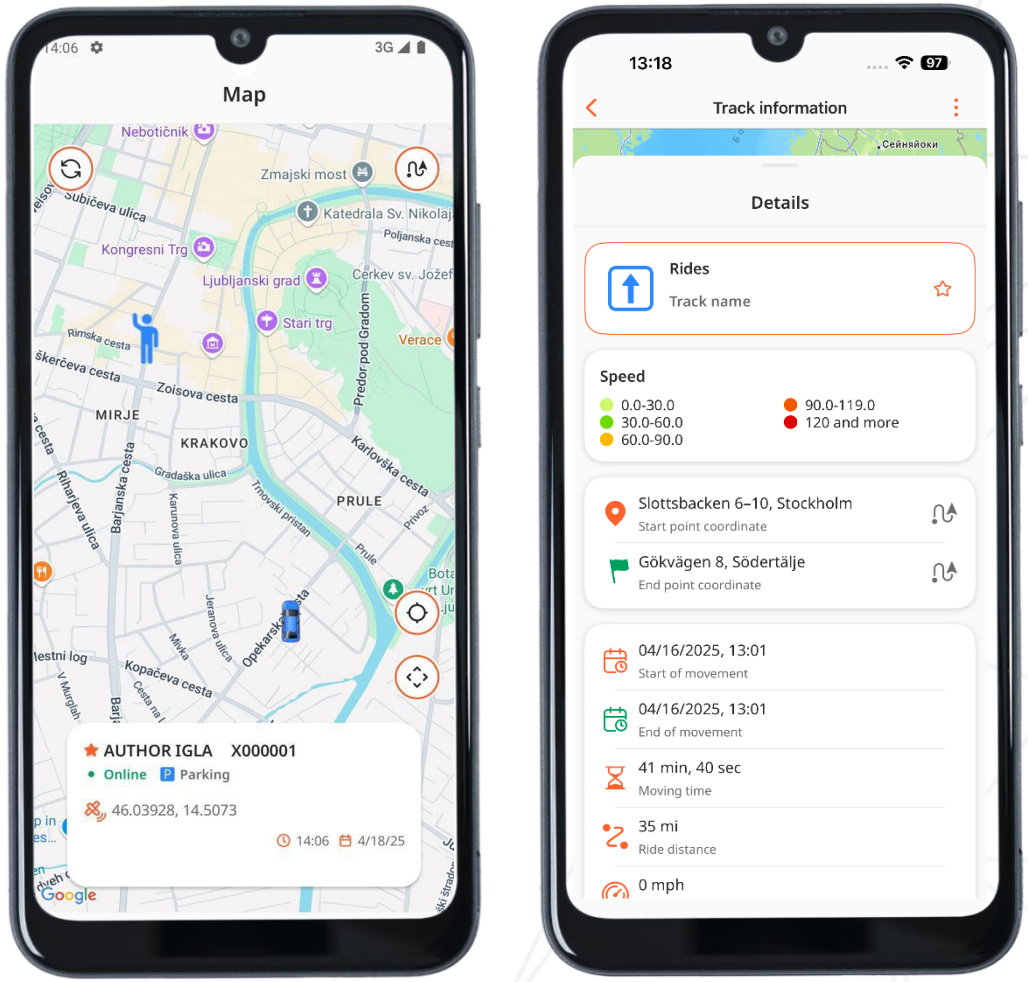


NEW VERSION OF AUTHOR CONNECT

More options — a higher convenience and stronger control!

Advanced options of display on the map

- The app shows the user's current location relative to the car
- Detailed ride history



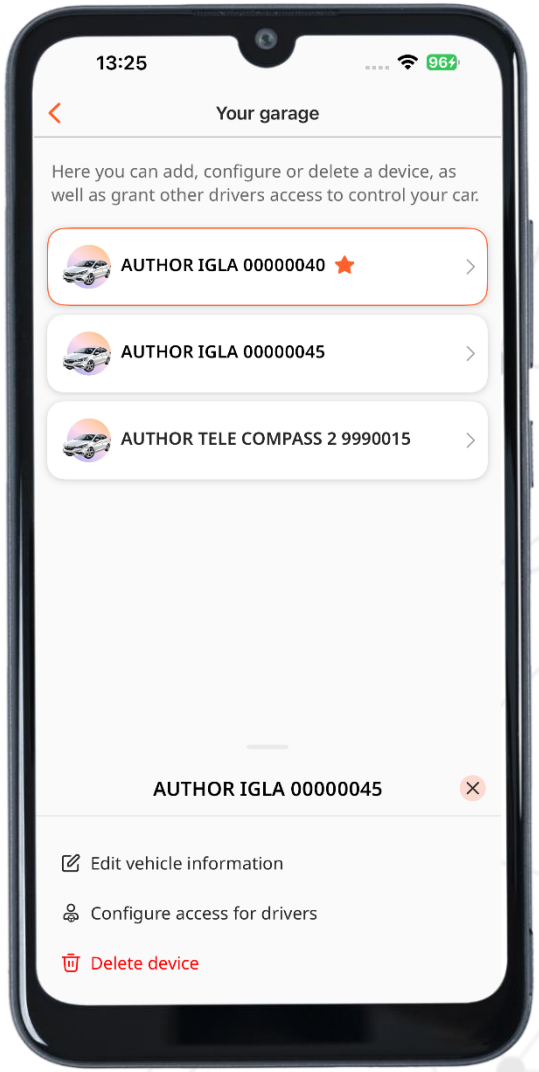
NEW VERSION OF AUTHOR CONNECT

One account — full control over your car fleet

Multi-account (My garage)

- Manage multiple cars in a single app
- Share your car access securely with other users

Handy tool for families with several cars and for small businesses

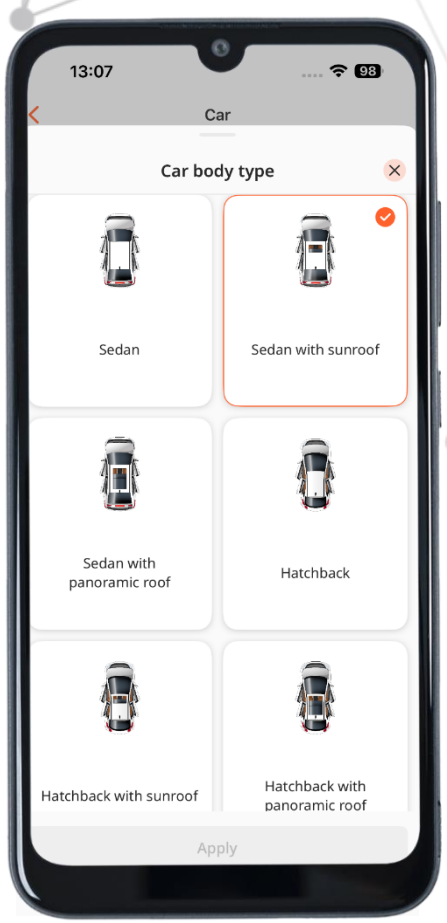


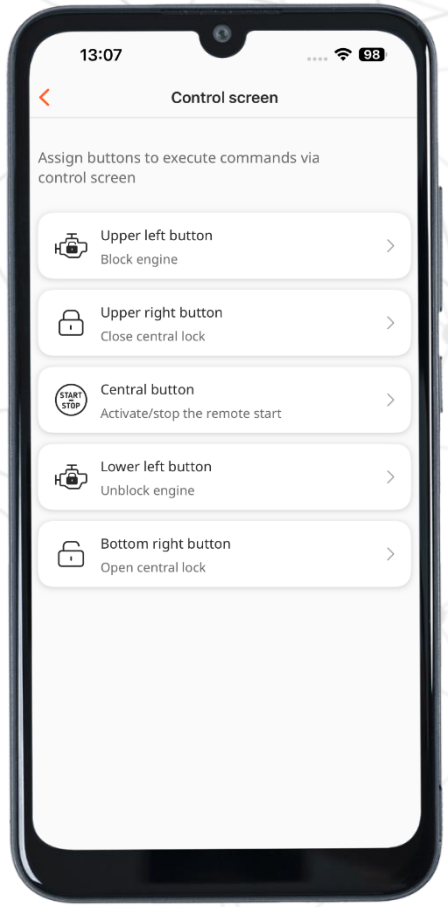
NEW VERSION OF AUTHOR CONNECT

Comfortable control as per your preferences

Personalization

- Use the app to choose the car's body and color
- Customize the dashboard



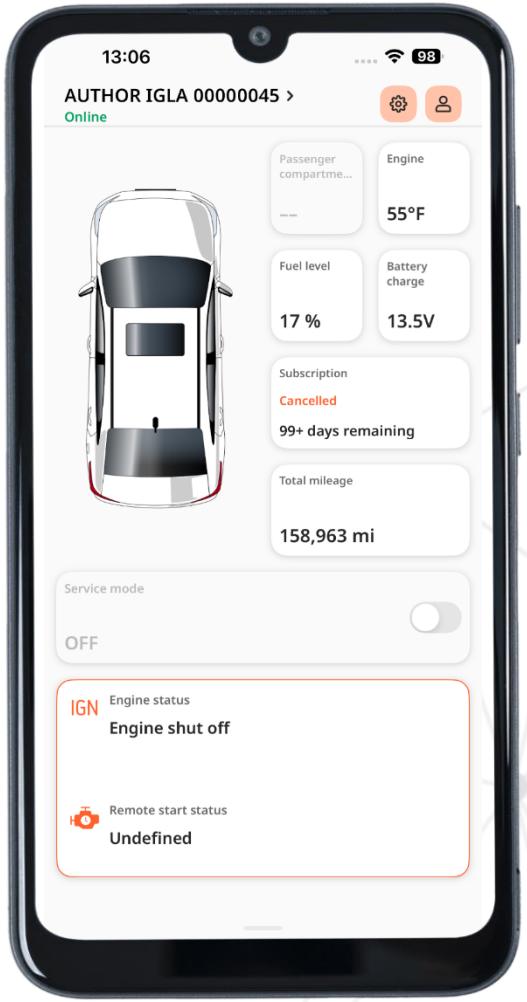


ANTI-THEFT AND SECURITY FEATURES

Security at your fingertips

AUTHOR's devices are comprehensive tools that enable you to:

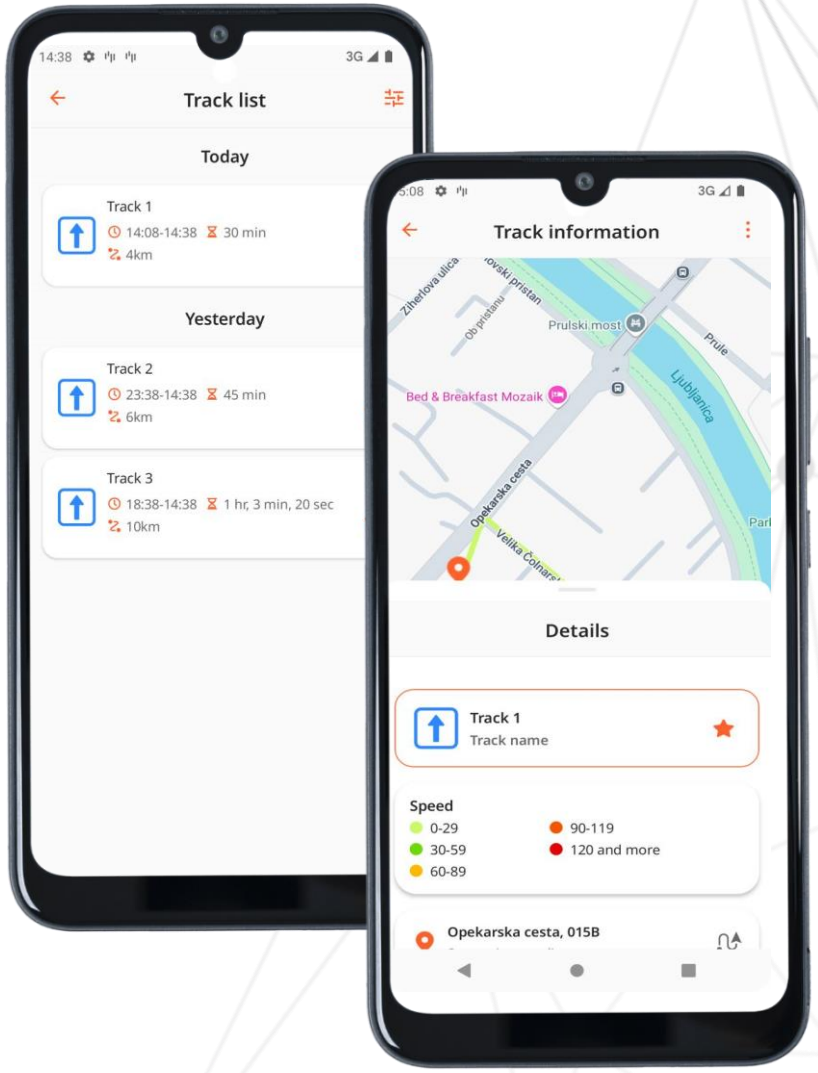
- **Block the engine remotely** to obtain a stronger protection
- **Monitor the car's status**: engine temperature, voltage of the on-board network, fuel, and total mileage
- **Car perimeter control** — protection against unauthorized access



REMOTE CONTROL OF YOUR CAR

Your ride details — always at hand!

- Display the event feed
- View detailed information about your rides: duration, distance, and average speed

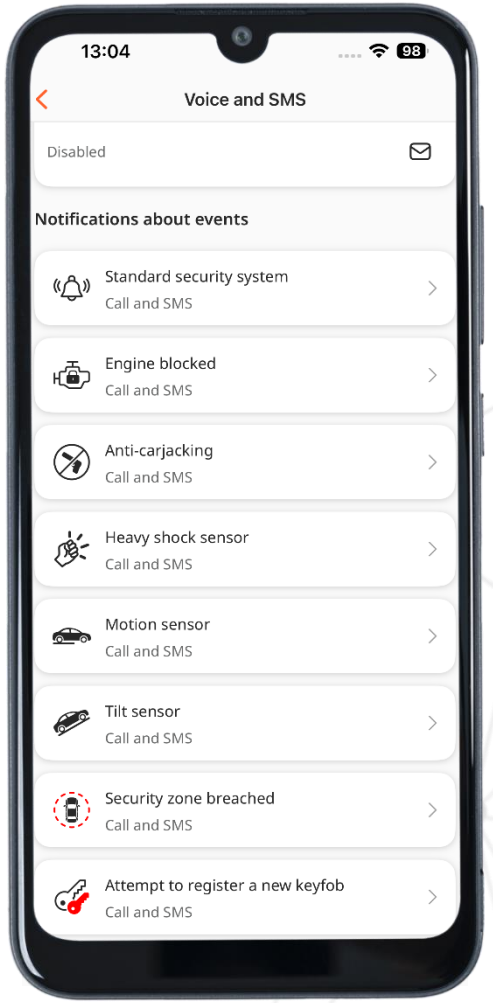


ALWAYS WELL INFORMED

Instant alerts about suspicious activity

The AUTHOR CONNECT 2.0 app protects you against unauthorized actions via:

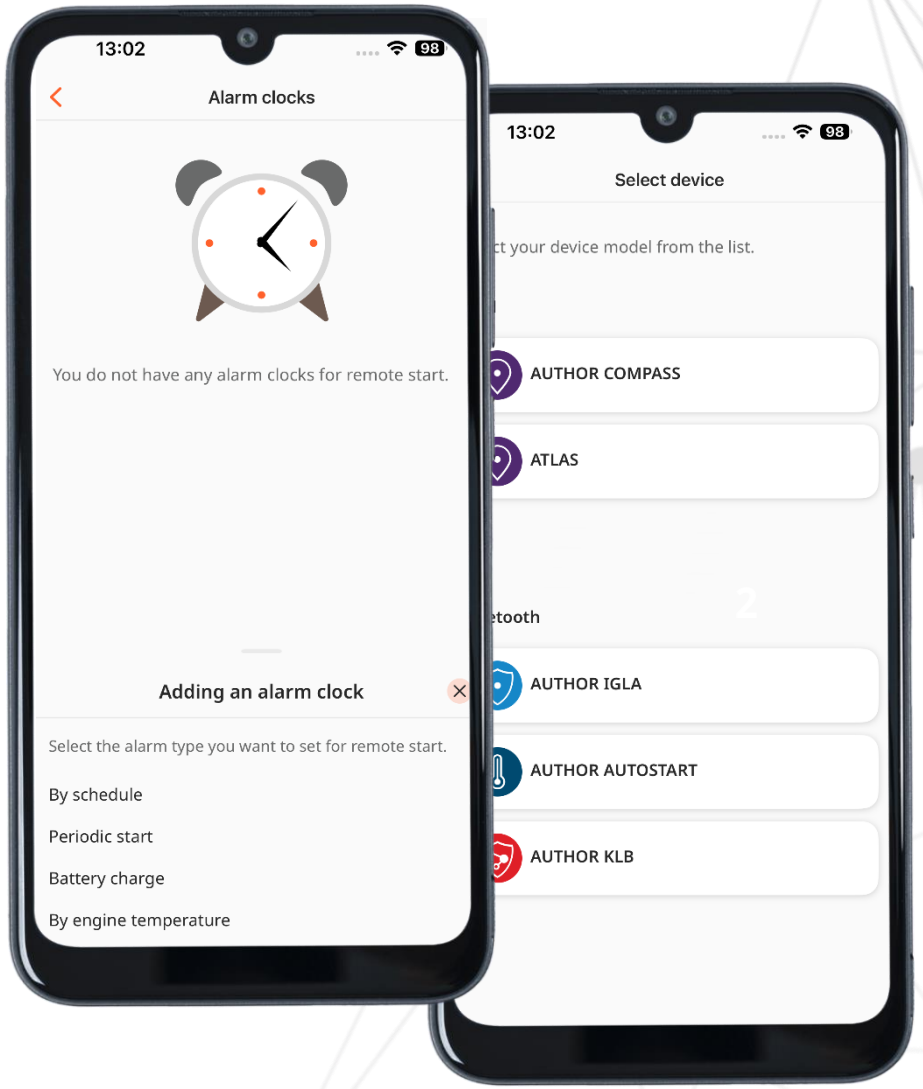
- Ignition-on alerts
- Engine blocking alerts
- Anti-carjacking alerts
- Notifications of unauthorized connection to the diagnostic port
- Notifications of keyfob cloning attempts



COMFORT FEATURES

Depending on the car's brand and model, the following features are available:

- **Central lock control** — lock or unlock your car remotely
- **Remote engine start** — user-friendly start:
  - Via the app
  - By schedule
  - By temperature
  - By on-board voltage
  - Periodic start (for example, starting the car every 5 hours for 15 minutes)
- **Easy wireless setup of security features**
- **Service mode** — very useful when taking your car to service maintenance



AUTHOR CONNECT 2.0

The app supports smartphones operated by IOS 15.0.0 and higher or Android 8.0 and higher.
