

Psychotherapist Job description

About Us

Authentic Life Clinical Counseling & Wellness (ALCCW) is a rapidly growing private practice located on the historic Independence Square, in Missouri. We are opening our second location in April, in Kansas City, MO (64133). ALCCW is looking for highly motivated psychotherapists for both locations, with experience working with children, adolescents, and/or adults. The ideal candidate will be fully licensed as an independent practitioner. We will assist with insurance credentialing, intake processes, scheduling, and billing so you can relax and be a therapist. We provide everything you need to do your job effectively. If you are looking for a way to branch out into private practice without the worry and stressors of the day-to-day business side of things, or lifelong contracts, this is a fantastic opportunity for you.

Position Summary

The Psychotherapist diagnoses and treats mental and emotional disorders whether cognitive, affective, or behavioral, within the context of private practice. This position is responsible for applying psychotherapeutic techniques to address client needs/goals, using the candidates preferred treatment modality such as DBT, CBT, ACT, EMDR, SFT etc...

Essential Duties and Responsibilities

The essential functions include, but are not limited to the following:

- Interact positively with patients and staff.
- Display professionalism and timeliness.
- Work with clients in a safe and reassuring way.
- Treat clients and staff in a way that respects their human dignity.
- Have knowledge of psychiatric conditions and complete initial biopsychosocial assessment.
- Diagnose, develop, and implement updated treatment plans/discharge summaries.
- Complete progress notes in a timely fashion.
- Ask questions that will help clients identify their feelings and behaviors.
- Encourage individuals to develop and use constructive skills and strategies for confronting problems.
- Maintain case files that include activities, progress notes, evaluations, and recommendations.
- Collect client information using techniques such as testing, interviewing, discussion, or observation.
- Confer with clients to develop plans for posttreatment activities.
- Perform other duties as assigned.
