CASE STUDY

EPCYBER

YOU CAN LEARN MORE FROM SOMEONE'S SPOTIFY THAN THEIR LINKEDIN

PEOPLE LOCK DOWN THEIR PROFESSIONAL PROFILES. THEY THINK ABOUT OPSEC WHEN USING WORK EMAILS.

BUT THEIR PERSONAL HABITS? THAT'S A DIFFERENT STORY.

🔍 A HACKER TRYING TO STAY ANONYMOUS USED HIS REAL NAME ON HIS SPOTIFY ACCOUNT.

🔍 HIS PUBLIC PLAYLISTS CONTAINED LINKS TO UNDERGROUND FORUMS.

🔍 THOSE FORUMS LINKED TO AN OLD USERNAME HE FORGOT ABOUT.

🔍 THAT USERNAME WAS TIED TO AN OLD EMAIL, WHICH HAD BEEN EXPOSED IN A BREACH.

💡 **FROM A SINGLE SPOTIFY PROFILE, WE GOT:**

- ✓ HIS OLD ALIASES
- ✓ THE UNDERGROUND GROUPS HE WAS IN
- ✓ A PERSONAL EMAIL CONNECTED TO MULTIPLE FRAUD REPORTS

! LESSON: YOUR BIGGEST DIGITAL FOOTPRINT ISN'T WHAT YOU POST—IT'S WHAT YOU FORGET TO HIDE.
