amazon

OSINT

CASE STUDY

EPCYBER

🚨 **HIS AMAZON WISHLIST FAILED HIS OPSEC**

HE PROTECTED HIS ACCOUNTS.
HE USED STRONG PASSWORDS.
HE NEVER SHARED PERSONAL DETAILS.

THEN HE LEFT HIS AMAZON WISHLIST PUBLIC.

🔍 **WHAT WE FOUND IN MINUTES:**
✔️ A WISHLIST DESCRIPTION CONTAINING HIS EMAIL ADDRESS
✔️ THAT EMAIL WAS IN MULTIPLE BREACHES, EXPOSING PASSWORDS USED ELSEWHERE
✔️ THOSE CREDENTIALS LINKED TO OTHER ALIASES, EXPANDING OUR INVESTIGATION
✔️ THE GIFT REGISTRY ADDRESS REVEALED HIS REAL FULL NAME AND LOCATION

💡 **ONE WISHLIST. FULL EXPOSURE.**

❗ **LESSON: PEOPLE SECURE THEIR ACCOUNTS BUT FORGET ABOUT WHAT THEY LEAVE PUBLIC.**
