

The series_id (HCUSH332233), as an example can be broken out into:

Code	=	Value
survey abbreviation	=	HC
seasonal adjustment code	=	U
case category	=	SH
detail code	=	3322
datatype code	=	3
case type code	=	3

Both data includes with the following format:

Field #/Data Element	Length	Value(Example)
1. series_id	17	HCUSH332233
2. year	4	1998
3. period	3	M01
4. value	12	2360
5. footnote_codes	10	It varies
series_id	17	HCUSH332233 Unique series identifier
year	4	1998 Identifies year of observation.
period	3	M01 Identifies period for which data Ex: M01=Jan is observed.
value	12	2360 Observation for the series.
footnote_code	10	It varies Identifies footnote for the data series.

There are still questions unanswered, thus may have to e-mail for answers.

If you have any questions or comments regarding the LABSTAT system on the Internet, address e-mail to labstat.helpdesk@bls.gov.

If you have any questions or comments regarding timeseries data, refer to the xx.contacts files located in each timeseries sub-directory.

see below:

Safety, Health, and Working Conditions Contacts

Fatality data: Census of Fatal Occupational Injuries (CFOI)

Data Dissemination: National data are published approximately 9 months after the reference year in a news release and more detailed data are published later in a bulletin. State-specific data on workplace fatalities may be requested from the State agencies participating with BLS in the census. Researchers may apply to BLS for access to the CFOI research file.

Contact: Staff members are available for your assistance.

TEL: 202-691-6175
FAX: 202-691-7862
E-MAIL: **cfoistaff@bls.gov**

Written inquiries should be directed to
Census of Fatal Occupational Injuries
Division of Program Analysis and Control
Office of Safety, Health and Working Conditions
U.S. Department of Labor
2 Massachusetts Ave., NE
Washington, D.C. 20212

Summary data: Survey of Occupational Injuries and Illnesses

Data Dissemination: National data are published approximately 12 months after the reference year in a news release and more detailed data are published later in a summary report and in a bulletin. State-specific data on workplace injuries and illnesses may be requested from the State agencies participating with BLS in the Survey of Occupational Injuries and Illnesses.

Contact: Staff members are available for your assistance.

Washington, D.C. 20212

Case and demographic data:

Data Dissemination: National data are published approximately 16 months after the reference year in a news release and more detailed data are published later in an annual bulletin. State-specific data on workplace injuries and illnesses may be requested from the State agencies participating with BLS in the Survey of Occupational Injuries and Illnesses.

Contact: Staff members are available for your assistance.

TEL: 202-691-6170
FAX: 202-691-6196
E-MAIL: **oshstaff@bls.gov**

Could A refer to Annual? M refers to month. M01 is January. Perhaps A01 just any year.

What year were these files? If old then the contact information may be outdated.
