

DURALAST  
FLOORS

# ABOUT US

Welcome to Duralast Floors, where each element is carefully crafted for perfection. We use UV-protected paints from Germany for vibrant, durable colors. Our floors, made with virgin materials, ensure the highest quality and feature a diamond layer for exceptional resistance to scratches, wear, and stains. Duralast Floors is committed to sustainability, offering VOC-free products for a healthy indoor environment. With 75 color options, you have the freedom to choose the perfect combination for your unique style.

Transform your space with Duralast Floors, where innovation meets beauty.

# SOBRE NÓS

Bem-vindos à Duralast Floors, especialistas em pisos de alta qualidade. Nossos produtos são cuidadosamente fabricados com tintas UV alemãs para cores vibrantes e duráveis. Utilizamos materiais virgens para garantir padrões de qualidade superiores, com destaque para a camada de diamante que oferece resistência excepcional. Além disso, comprometemo-nos com a sustentabilidade, garantindo que nossos produtos sejam livres de VOC, promovendo um ambiente saudável. Com uma paleta de 75 cores, permitimos que você escolha a combinação perfeita para o seu estilo.

Transforme seu espaço com a Duralast Floors, onde inovação encontra beleza.

# IXPE FOAM PADDING

Our IXPE is the latest advanced technology in cross-linked foam designed to provide supreme sound reduction, impact absorption, and advanced moisture protection. All Durato floors come with the IXPE padding already attached to the back of each plank for easy installation, in addition to providing a healthier, softer, and quieter living space.

---

## FEATURES

- 100% waterproof
- Mold, rot, and bacteria-resistant
- Excellent insulator, perfect for radiant floors
- Superior sound reduction

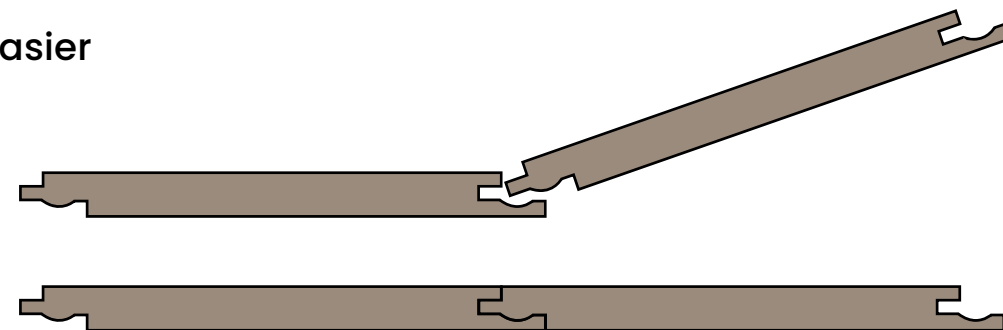

# LOCKING SYSTEM **CLICK**

We listened to commercial floor mechanics and developed a modified locking system invented by two patent holders. We enhanced it by collaborating with tool manufacturers and asked if we could experiment with different angles and thicknesses to see if it would improve the installer's experience. After numerous attempts, we were able to find a unique cutting tool profile that works best. All Durato floors are manufactured to higher standards. We believe that better ingredients, ingenuity, processes, and after-sales support are the key to a successful floor installation.

## **FEATURES**

- Modified click lock based on the most robust and straightforward locking systems
- Unique angle of the locking mechanism
- Thicker and longer locking system for easier installation and stronger locking
- Faster installation time

con la mejor protección

**PROTEGIDO**  
Tecnología Quantum X™

## SCRATCH RESISTANCE MEASUREMENT

The Mohs mineral hardness scale classifies the scratch resistance of various minerals. While many flooring products use materials like aluminum oxide, quartz, and ceramic beads for enhanced durability, diamonds surpass those elements on the Mohs scale.

# QUANTUM X TECHNOLOGY

Enhanced Wear Layer with Diamonds, Scratch-Resistant, Stain-Resistant, and Dent-Resistant.

A coveted symbol of beauty and longevity, diamonds are one of nature's hardest surfaces. With their unparalleled strength, real diamonds are the key ingredient in our Quantum XTM technology wear layer, resulting in unparalleled protection for our floors. The double UV Fade coating ensures the product is resistant to flames, stains, scratches, and marks, keeping your floor looking as good as the day it was installed.
