Fellow modelers, who will attend our March 2<sup>nd</sup> Mad City Modelers' show.

#### Call to Arms!

We need your help. We are going to test the new IPMS NATS model registration system during our local show and need as many of you as possible to register your model or models using our early release version.

You will get an early glimpse of what is to become a standard pan-IPMS platform, where you have a dedicated depository of models you build and register for the national convention or local IPMS shows.

Hopefully as more clubs become interested in using it, it has potential to become much more than IPMS National Convention and Mad City Modelers' system, leading to a database of models you can choose to take to your next local show with all information on model already prefilled in the form, customized to each club's needs. Imagine that. No more late-night form filling, you log in, choose models from your account you wish to take and register them for the show you are going to the next morning. Breeze and poetry.

Long story short, we would like to ask you to register models (you can even put a picture if you want!) in the model library then register them for our show and print out the prefilled form. You will take the form with you to the show. Saves time for you and for us.

Instructions follow immediately in the PDF guide within this post. If you need help, post a question on our Facebook page (<u>https://www.facebook.com/groups/377059107587</u>). We will try to help.

As a small token of appreciation, we are offering 5 raffle tickets to each modeler who registers this way and brings printed forms to the show.

#### Remember to bring printed model registration forms!

Yours,

MadCity Modelers
