ENTRY TITLE: Custom Ford Van (AMT)
SHOW-THREE ELIGIBLE: YES ☒ NO
KIT(S) AND TECHNIQUES USED:
I added the hood scoop, rear spoiler, CB, side pipes, and fog lights from my parts bin. The diamond patterned headliner, beaded curtains, chain steering wheel were scratch built. I found the Keystone wheels from a vendor at a show. And tires were extras from another AMT kit. I thought they both looked period correct for this build.
