

Hi there,

We will be direct and straight to it; we are keen on collaborating with you.

Information below as to why!

We are part of a new breed of outcome-based talent partners, navigating the space between a traditional recruitment agency and a management consultancy.

As genuine subject matter experts, with decades of success delivering Payment professionals, we have designed a bespoke suite of products, which are simple to choose and implement for your hire needs.

- Pop-up Interim Teams
- Outsource In-House
- Classic Contracts
- Multi-Hire Package
- Key Hire / Modern Search

Our approach allows us to present the most precise talent solutions, ranging from talent pooling (building a portfolio of people/skills to tap into as required) to statement of works (outsourced programs of work) and everything in-between.

Once agreement has been reached, we harness the most effective 'deep search' process to deliver the ideal resource efficiently anywhere in the globe.

We combine the most effective technology and best practice with a classic approach to service and relationships, which results in you implementing the strongest Payments related team.

We cover all areas of Payments, FinTech, Fraud & Identity globally, including all levels of Sales, Account Management, Heads of, Presales, Business Analysts, Implementation Managers, Product Managers, Project Managers, Operations, Developers and Support, across both contract and permanent whether early start up, hyper growth/scaling up or established companies.

Based on the above, I hope you agree that there is a great deal of committed energy to ensuring you are more than satisfied. We are confident that we can add value from day one to you.
