# WHO WE ARE

Joymaking Memories is a family-operated production company in Northern California specializing in videography and photography.

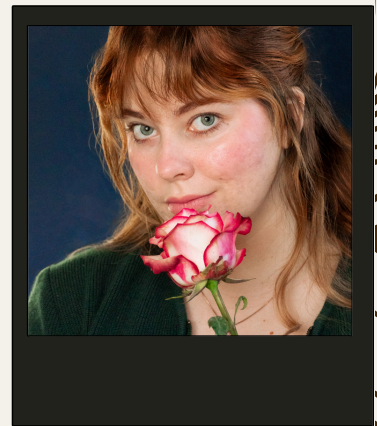

Tara Grover Smith

Founder of Joymaking Memories  
and videographer

Bernadette Rose Smith

Photographer

Josh Fesler

Videographer

# Our Process

Our process begins with booking a discovery video call with you to learn all about you as a couple and your vision for your wedding. We discuss poses, all the particular shots you would like to get (first look, first dance, cutting the cake, etc.). We talk about all these details, and we stay in touch with you leading up to the wedding.

On the day of, we capture moments of the couple getting ready, as well as interviews with family and friends. We film the entire ceremony with two cinematic cameras in addition to taking photographs, as per your wishes. We verify all your moments you'd specified are captured.

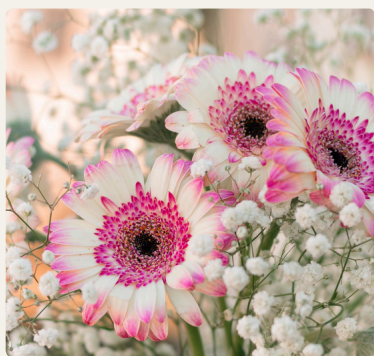

During the reception, all the toasts are filmed. We will stay as long as you'd like to film and photograph all the festivities.

We provide a few sneak peak photos a few days after your wedding, so you can share with your friends, family, and social media.

Editing of videos and photos takes approximately 3-4 weeks, and we deliver via our online gallery.

Prints and albums are available as well.
