

# ROOFING Replacement Guide

## Common Roofing Manufacturers:

American Building Components USA -

Manufactured in 🇺🇸

Atlas USA - Manufactured in 🇺🇸

CertainTeed USA - Manufactured in 🇺🇸 - ☀️

Englert USA - Manufactured in 🇺🇸

GAF USA - Manufactured in 🇺🇸 - 👤

IKO Canada - Manufactured in 🇨🇦

Malarkey USA - Manufactured in 🇺🇸

Owens Corning USA - Manufactured in 🇺🇸

Pabco USA - Manufactured in 🇺🇸 - 💰

Tamko USA - Manufactured in 🇺🇸 - 💰

Worthouse USA - Manufactured in 🇺🇸

## Key Differences:

Warranty

Materials

Durability

Color-Stay

Ventilation Elements

Solar/Rain/Thermal Performance

Wind/Ice/Snow/Fire/Salt Resistance

Moss/Algae Resistance

## General Roofing Replacement Guidelines:

- Water stains on ceilings or walls may indicate a roofing leak.
- Long-standing leaks may require mold remediation.
- Act quickly if a roofing leak is suspected.
- Untreated moss can cause roof and structural damage.
- Rotted or water-damaged materials (wood sheeting, decking, gables, joists, fascia, soffits, gutters) may need attention during roof repairs or replacement.
- Roof replacement is a good opportunity to upgrade attic insulation.
- Consider future plans for solar panels, as certain roof types may be required.
- Adding a second layer of composite roofing can save thousands compared to full replacement.
- Metal roofing is ideal for homes with excess plant debris.
- Explore composite shingle reconditioning as an option.

# ROOFING Replacement Guide

## American Building Components (ABC)

- Specializes in **metal roofing** and wall panels.
- Offers **residential, commercial, and agricultural** roofing solutions.
- Provides **energy-efficient** options with coatings that reflect sunlight.

## Atlas

- Focuses on **asphalt shingles** with enhanced **impact resistance** (StormMaster® series).
- Uses **3M Scotchgard™** to resist algae growth.
- Offers **high wind-rated** shingles for severe weather areas.

## CertainTeed - 🌟

- Offers **asphalt shingles, synthetic slate, and metal roofing**.
- Known for **premium luxury shingles** like Presidential® and Landmark®.
- Provides **solar-integrated roofing** (Apollo® series).

## Englert

- Specializes in **standing seam metal roofing**.
- Strong focus on **sustainability and cool roofing** technologies.
- Used in **architectural and commercial** applications.

## GAF - 👤

- One of the largest **asphalt shingle** manufacturers in North America.
- Offers **Timberline®** series with **high durability and aesthetics**.
- Features **advanced weather protection** and **energy-efficient options**.

## Malarkey - 🌍

- Known for **rubberized asphalt shingles**, which enhanced **flexibility and impact resistance**.
- Uses **smog-reducing granules** for environmental benefits.
- Focuses on **sustainability** with **upcycled materials**.

## Owens Corning

- Leading manufacturer of **fiberglass asphalt shingles**.
- Offers **TruDefinition® Duration® shingles** with **SureNail® technology** for superior wind resistance.
- Provides **strong warranty options** and **high energy efficiency**.

## Pabco - 💰

- Produces **asphalt shingles**, including **architectural and impact-resistant** options.
- Less known than GAF or CertainTeed but offers **good affordability**.
- Family-owned company with a focus on **Pacific Northwest markets**.

## Tamko - 💰

- Manufacturer of **asphalt shingles**, metal roofing, and waterproofing solutions.
- Offers **Heritage® series shingles** with **impact resistance and algae resistance**.
- Focuses on **traditional aesthetics** with solid **performance**.

## Worthouse

- Specializes in **high-end steel roofing systems**.
- Uses **corrosion-resistant coatings** for **longevity**.
- Offers **modern European-style metal roofing**, often used for residential and commercial buildings.
