

Hardin Valley CBI

Be at HVA by 9am. Wait outside of the sped room door (front of building first exterior door, currently at the end of the construction fence) behind bus 278.

The staff will bring the students out, load the buses, and tell you where they will be going. There should always be a school staff member present with students. Sometimes the buses go to the same place, sometimes they go to different locations. When you unload, if the staff doesn't tell you when to return, be sure to ask. You will get a 1 hour lunch break after the second run of the day.

For example: students load and the first stop is at Double Dogs. Pull up to front door and unload. Then proceed to Food City on Middlebrook. Pull up to the front door so that your students unload on the sidewalk. Ask what time to return. Pull out to the edge of the parking lot, somewhere out of the way to wait.

Return to the front of Food City to retrieve your students. Proceed to Double Dogs to retrieve the rest of your students and return them to school. The next group will come out in about 10-15 minutes. The staff will tell you where to go.

Remember:

- Don't allow more students on the bus than you have room for.
- No more than 15 miles in one direction.
- Multiple stops must be in the same vicinity or direction.
- The staff is horrible at communication, with the drivers and with each other.
