

EMF Professional Solutions

Assessment Agreement

Limitations of the Assessment

Without limitation, this assessment is not a structural, mechanical or electrical system inspection, pest inspection or building code compliance inspection. The results of the assessment apply only to conditions at the time of the assessment. Environmental Electromagnetic Fields and Radiation and other toxins and pollution levels may be significantly higher or lower at different times other than the date and time of the assessment. This assessment cannot be exhaustive given the limited cost and time devoted to it. Therefore, all problem areas and EMF's may not be identified and hidden or developing problems may be missed.

Absolutely no warranties or guarantees are provided whatsoever. The client by signing below hereby releases Lee Sagula, EMF Professional Solutions, her employees or contractors and any and all persons involved in any way with this inspection or with any products sold or recommended by EMF Professional Solutions from any and all liability.
