N5 TILT&TURN WINDOW

**ROLANSINI**

(08) 6270 6374

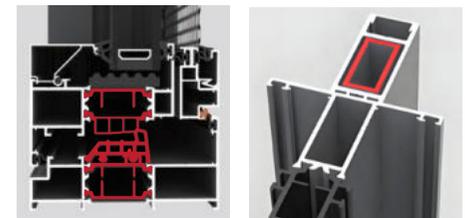

[sales@rolansini.com.au](mailto:sales@rolansini.com.au)

### INNOVATIVE DESIGN

N5 features a 39mm width insulating strip, which provides superior thermal insulation; It can prevent direct cold drafts where the air distributed in the upper part of the window sash. Our uniquely designed side ventilation window features a floor-to-ceiling large glass structure, which allows the room to be ventilated effectively.

- Profile thickness: 1.8mm
- Frame Depth: 90/100mm
- Frame Width: 19.2mm
- Sash Width: 70.4mm
- Glass Standard: 5G+20A+5G
- Hardware: HOPO
- Mesh: 304 ss/316 ss/Nylon

### PERFORMANCE

Thermal Insulation  
2.5 > Uw ≥ 2.0 W/m<sup>2</sup>K

Wind Resistant  
4.5 > P3 ≥ 4.0 kPa

Sound Insulation (Rw)  
32 dB

Air tightness  
LEVEL 7

Water Tightness  
500 ≤ ΔP < 700 pa

\*Note: Performance based on glazing and size, the above conditions are laboratory theoretical data
