# Course Title: Creating a Supportive Environment for New Iowans Submitted by: Mark Busch

#### **Course Description:**

Students who are immigrants or from immigrant households experience many difficulties integrating into the school setting. Language is a common barrier, but there are many others from cultural norms to acceptance in often rural parts of Iowa. How can you create a more inclusive school and classroom for these New Iowans?

This online class will examine the issue of immigration and offer thought provoking methods to assist in supporting these students including anti-biases information, privilege, resources to better support, and other information from leading experts. **Credit:** One

## **Grading Rubrics for Individual Activities**

## **Discussion Forums (50 points possible)**

Discussion Forums are asynchronous ways to engage in class discussions. They require you to submit an answer to a question and respond to the posts of other peers. Because they are an integral part of sharing strategies, analyzing research, and sharing ideas, discussion forums in this course comprise a significant percentage of your final grade. It's highly recommended that you read and respond to more than the required two peer postings because greater participation will facilitate a greater depth of understanding. Additionally, it's important to make posts in a timely manner to benefit from peer responses.

The implementation plan is a critical part of this course. Participants must complete a one-page implementation plan. The paper is meant to be a reflection as well as a chance to state what you will use going forward. The rubric below will be used to grade the Implementation Plan, but additional details will be provided within the course.
