

## **Course Syllabus: Dissecting the Complexities of Social Media: From Cyberbullying to Sexting**

**Number of Credits:** 1\*

**Course Instructors:** Mark Busch and Morgan Dodge

### **Course Description:**

Students are using social media in an alarming percentage of their daily activities. Studies show that 75% of youth use some kind of media every day, and over half of children under 10 years old possess smart phones or a tablet. Social media isn't going anywhere soon, so educators are struggling to keep up with the emerging technologies. Additionally, the evolution of technology has taken issues that were once overt and visible in the classroom to the abstract world of online. Teachers must learn to navigate the various scenarios that come with this rise in media and learn to solve problems and apply law when necessary.

This course will introduce educators to the evolving platforms of social media and familiarize them with their use. After studying trends and various media outlets, participants will learn to apply this technology to their classroom and engage students on its use. Additionally this course will examine the controversial issues associated with social media, including the topics of laws regarding social media, sexting and online harassment.

Activities in this course include the analysis and application of various forms of social media platforms, a study of laws concerning cyber bullying and security, and using learned technology to create a classroom resource that will further engage students in academics.

### **Learning Objectives:**

Upon completion of this course, students will be able to:

- Demonstrate deeper knowledge and understanding of the evolving forms of social media and trends in its use
- Evaluate state and local laws on technology use and apply them to real-world scenarios

### **\* Course Requirements:**

To receive full credit for the course, participants must complete ALL assignments and respond to specific questions outlined in each assignment. Failure to complete all assignments will result in a disqualification in the course and a failing grade.

### **Other Course Information:**

#### **Getting Started**

- After registering for the course, you will be sent an email with the website address, password and course key you need to access your online course, along with log in instructions.
- Access each assignment through the course home page. All assignments will be submitted through the Moodle platform on each respective assignment page.
- Please save a backup copy of all course assignments and completed work.

#### **Participation**

- You are not required to be present (i.e. online) specific days or times. You will work at your own pace. The course is structured in 3 Weekly Units, however all assignments will not be due until the final day of the course.
- All responses will be posted online. Large documents, files, photographs or PowerPoint presentations may be attached as part of your response by using the “Submit A File” option.
- You may work collaboratively and submit similar responses on all assignments except final projects, which must be individually authored.

#### **INTASC Standards that are addressed in this course:**

- 2. The teacher understands how children learn and develop, and can provide learning opportunities that support their intellectual, social and personal development.

- 3. The teacher understands how students differ in their approaches to learning and creates instructional opportunities that are adapted to diverse learners.
- 4. The teacher understands and uses a variety of instructional strategies to encourage students' development of critical thinking, problem solving and performance skills.
- 5. The teacher uses an understanding of individual and group motivation and behavior to create a learning environment that encourages positive social interaction, active engagement in learning, and self-motivation.
- 6. The teacher uses knowledge of effective verbal, nonverbal, and media communication techniques to foster active inquiry, collaboration, and supportive interaction in the classroom.
- 7. The teacher plans instruction based upon knowledge of subject matter, students, the community, and curriculum goals.
- 9. The teacher is a reflective practitioner who continually evaluates the effects of his/her choices and actions on others (students, parents, and other professional in the learning community) and who actively seeks out opportunities to grow professionally.
- 10. The teacher fosters relationships with school colleagues, parents, and agencies in the larger community to support students' learning and well-being.

## Grading Rubrics for Individual Activities

### **Discussion Forums (50 points possible)**

Discussion Forums are asynchronous ways to engage in class discussions. They require you to submit an answer to a question and respond to the posts of other peers. Because they are an integral part of sharing strategies, analyzing research, and sharing ideas, discussion forums in this course comprise a significant percentage of your final grade. It's highly recommended that you read and respond to more than the required two peer postings because greater participation will facilitate a greater depth of understanding. Additionally, it's important to make posts in a timely manner to benefit from peer responses.

<b>Grading Rubric for Discussion Forums</b>		
		<b>Points</b>
<b>Critical Thinking</b>	Makes connections to the other content and real-life that are supported by reference(s) and example(s)	1
	Offers new ideas, connections, or applications	1
	Expresses and justifies personal opinion	1
<b>Assignment Specific Criteria</b>	Addresses all parts of the assignment, cites sources	1
<b>Participation (Responses to at least 2 peer posts)</b>	Responds to other posts (when available)	1
<b>Total Points Possible</b>		5

### **Implementation Plan (25 points possible)**

The implementation plan is a critical part of this course. Participants must complete a one-page implementation plan. The paper is meant to be a reflection as well as a chance to state what you will use going forward. The rubric below will be used to grade the Implementation Plan, but additional details will be provided within the course.

<b>Grading Rubric for Implementation Plan</b>		
		<b>Points</b>
<b>Critical Thinking</b>	Highlights any new knowledge gained as a result of course.	5
	Offers new ideas, connections, or applications	5
	Expresses and justifies personal opinion	3
	Discusses Overall Implications	2
<b>Assignment Specific Criteria</b>	Addresses all parts of the assignment, cites sources	2
<b>Mechanics</b>	Writing is clear, well developed, and organized, No or few grammar and spelling errors	2
<b>Implementation</b>	Clearly states ideas to use in the future	2
	States resources to be used	2
	Is realistic in their approach – understands limitations may exist	2
<b>Total Points Possible</b>		25
