

Jay Robin (J.R.) Riggs **California Baptist University**

I started as an Aviation Management student at CBU last fall after being laid off. I was interested in the CBU Aviation program before I was laid off, and after praying about it, I was lead to the realization it was time to start doing something I love to do, rather than just having an everyday job.

Since I have joined the CBU Aviation program, I have truly realized that this is what God has for me.

A bit about me personally, I have been married to my beautiful wife Amy for almost 10 years and I am a 20-year cancer survivor. In our free time, we love to bicycle and do triathlons, and have done a few century rides. We are also big hockey and football fans.
