

Perry & LaNnae Pust Mission Aviation Fellowship (MAF)

Perry and LaNnae Pust are missionaries with Mission Aviation Fellowship serving on home staff in the Recruiting Department.

The Pust's previously served 21 years in Indonesia - Perry as a pilot/mechanic, and LaNnae as a teacher.

Perry's present position as North West Recruiter puts him in touch with many who are in the process of responding to God's call on their lives to become mission aviators, teachers, computer specialists, or fulfill other needs within MAF. Perry says, "It is a joy to sit with those to whom God is speaking about joining MAF and encourage them along that path - walking with them through the long journey of preparation, which most often takes about nine years."

LaNnae's varied experience on the mission field provides information that is also very helpful to those new wives whose husbands are looking at MAF as a career. Together they have many opportunities to share their experience and answer the many questions new couples have as they continue to pray and seek God's clear direction for their lives.
