

InCubArte INTERNACIONAL is the vision of Marcos Carvajal of a space where professional visual artists will gather to make art, learn, exhibit artwork and share their knowledge.

InCubArte INTERNACIONAL promotes the participation of members of the community interested in developing visual arts skills and knowledge and their creativity as it applies to all types of human ingenuity.

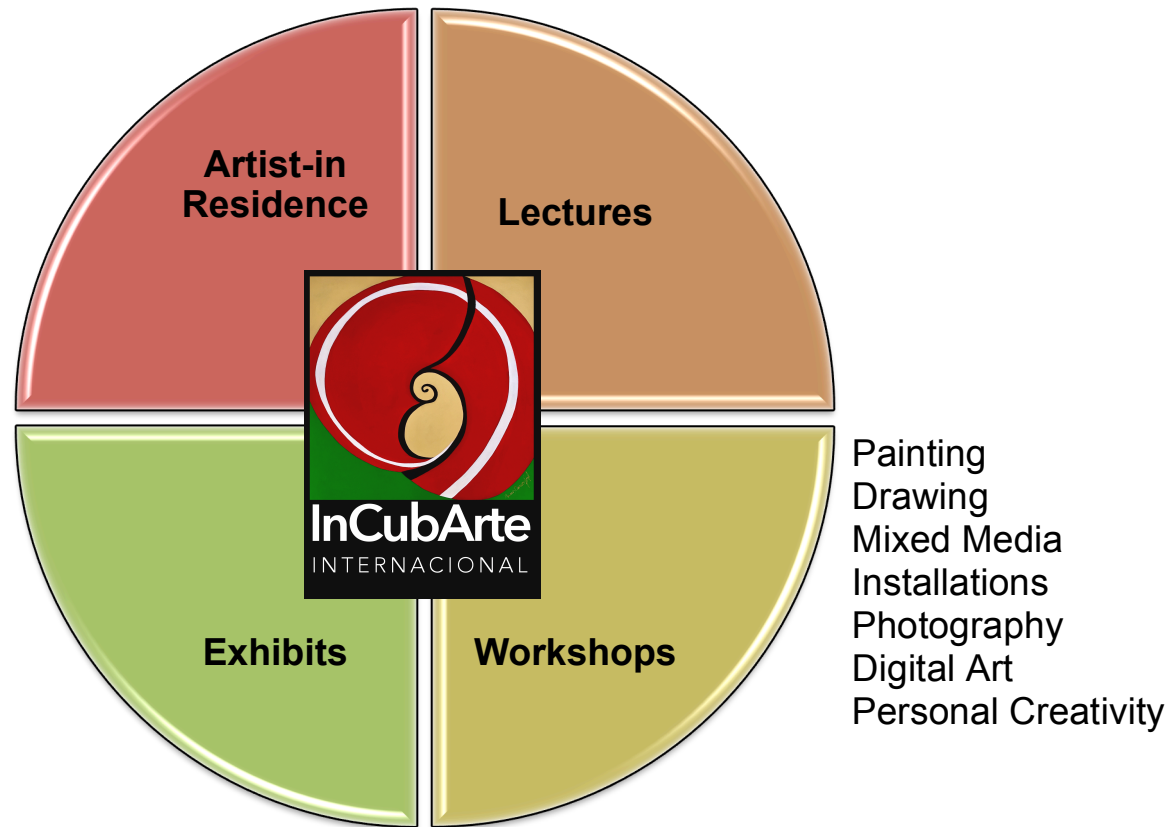

InCubArte INTERNACIONAL provides housing facilities for visiting resident artists, workshop facilities, conference rooms and a dining- kitchen space for food preparation and service.

LOGO

Polymita

The polymita, an endemic snail of Cuba, is considered the most beautiful terrestrial mollusk in the world for its extraordinary variations and color combinations of their shells. With hermaphrodite features, its fertilization occurs between two individuals that come together and both are fertilized. **InCubArte INTERNACIONAL** is a space with the appropriate conditions for promoting the InCubAation of creativity among those who participate in its activities.
