

Corporate Presentation

2023

Presented to Our Premiere Customers

OUR MISSION

To Provide a complete Suite of Technical Services to Airlines, Aircraft Leasing Companies and Aviation Assets Management Companies

OUR EXPERIENCE

▶ T3Tech is an Aviation Technical Services group that brings more than 300 years combined solid experience in the Aviation Industry, whose founding members leverage their expertise on their senior level Technical Tenures at renowned worldwide Aircraft Leasing Companies, Airlines and Aviation Assets Management Companies

COMPANY BACKGROUND

▶ T3Tech is a company incorporated in United States of America with headquarters in the Pacific Northwest and the Greater Miami area. with presence in North, Central and South America; Europe; Africa, and Asia.

▶ T3Tech was founded in 2019 leveraging on the expertise of Manuel Cordero, President of Cusco Aviation and Cesar Guedez, President of CAG Aviation Consulting

▶ Our team has extensive experience and expertise providing advice on all technical aspects of lease, purchase and sale transaction and have had oversight of leased aviation assets, such as Aircraft, Engines, Parts Inventory.

▶ In addition, Manuel, Cesar and the rest of affiliated professionals, have led the technical teams of several aircraft leasing companies, airlines and MRO's that have provided unparalleled experience to fully understand the processes of commercial leasing and aircraft operation.

WHO WE ARE

Manuel E. Cordero – President and CEO

Manuel E. Cordero is T3Tech's CEO and President and CEO of Cusco Aviation, LLC, an Aircraft and Engine Leasing, Trading, Asset Management, and Technical Services Company which he founded in early 2016. Prior to founding T3Tech and Cusco Aviation, Manuel was responsible for the Technical group at Jackson Square Aviation as their Senior Vice President Technical Services. He was also part of the team who founded Sky Holding and Jackson Square Aviation. Prior to joining Jackson Square Aviation, Manuel led the Technical teams at Sky Holding Company and Pegasus Aviation Finance company in San Francisco, California. Earlier during his career, he also held senior technical roles at AWAS, Aeroperu, Americana de Aviacion and Aerochasqui.

During his various tenures, Manuel has provided expert advice on all technical and commercial aspects of lease, purchase and sale transactions and has had oversight of the leased aircraft assets. He has also managed all Maintenance Reserve Claims and approvals for modifications, and major maintenance events. Manuel also led transition efforts related to over 250 aircraft delivery, redeliveries and early terminations, including New Boeing and Airbus Aircraft deliveries. His 30+ year experience in the Aviation industry has provided him with a wealth of experience in the field of aircraft leasing from both the Lessee and Lessor's perspective.

WHO WE ARE

Cesar Guedez – Chief Operating Officer

Cesar Guedez is T3Tech's Chief Operating Officer and founder and CEO of CAG Aviation Consulting. Cesar is an Aerospace Engineer with over 28 years of experience in the aviation industry. He started his career in an Airworthiness Engineering role at the Venezuelan CAA. He later transitioned to the MRO and Airline sector, having had roles as Quality Control and Quality Assurance Director, SVP of Engineering and Maintenance, Corporate VP of Operations, General Manager of Operations and Corporate Director of fleet Management and Acquisitions. His responsibilities have included leadership roles in Aircraft Purchase and Leasing projects, Aircraft Deliveries and Re-Deliveries, Fleet Transitions and Heavy Maintenance Management.

KEY PERSONNEL

Jesus Mora – Business Development

Jesus has over 40 years experience in operations, fleet management, international sales and product support in the aviation industry. He boasts tenures at the Venezuelan Aviation Authority, Aircraft Parts supply companies, as well as Fleet Management leadership roles at various airlines. Jesus' leadership and strong relationships during his career brings added value to developing new business to T3Tech. Jesus is a graduate of the Master programs in Business Administration and Aeronautical Sciences from Embry Riddle Aeronautical University, Daytona Beach campus. He also has a large experience in Supply Chain and Project Management..

KEY PERSONNEL

Oscar Amaya – Senior Technical Consultant

Mechanical Aerospace Engineer with over 23 years experience in the Aviation Industry with vast knowledge in In-Service Engineering, Airframe Systems, Structures and Heavy Maintenance Specialist, Aircraft Configuration, implementation processes and Aircraft Entry-Into-Service of Narrow and Wide Body Boeing, Airbus, ATR, and Fokker Aircraft

KEY PERSONNEL

Raul Guillen – Manager Technical Records

- Raul E. Guillen is Project Manager for T3Tech based in Lima, Peru. Prior to T3Tech, Raul leveraged his technical consultant experience to support Aircraft lease highlighted as technical representative on-site in leasing. His aviation technical experience also stems from his tenures at the Engineering department in commercial airlines, where he managed their fleet airframe and powerplant maintenance programs. His 15 years' experience in the Aviation industry has provided him field experience in maintenance inspections, airframe checks, major modifications, technical records, pre-purchase inspections, physical inspections & technical reviews. His experience also encompasses aircraft lease redeliveries and ferry flight project management. Raul holds a Mechanical Engineering Degree from The National University of Engineering in Peru and an MBA from the San Pablo University in Spain.

KEY PERSONNEL

Ganimeh Diaz – Technical Consultant

Ganimeh, an aeronautical engineer with more than 35 years of experience in the Commercial and Civil aviation industry. Her technical experience in aviation derives from positions held in the area of engineering and maintenance planning, in different commercial airlines. She also has experience in auditing records, implementation of programs for maintenance management and control, as well as project development for the airline's certifications. Also, she has worked on "IOSA" certification and operational safety management system. As a university professor, she is an advisor for undergraduate projects. Finally, her extensive experience has led her to move into the area of technical consulting for aircraft leasing companies.
