Travel Advisory

United States of America

The Ethiopian World Federation, Incorporated is issuing a **Level 3** travel advisory for the country of The United States of America.

COUNTRY SUMMARY:

Due to missing persons, missing organs upon coroner reports, gun violence against American African children, gun violence against the American African elderly, promotion of abnormal sex and sodomy in elementary schools, promotion of violence towards American Africans online, mysterious deaths of American African celebrities, high incarceration for nonviolent crimes in The United States of America, the neglect of public information on the border crisis, forcing of experimental vaccines for children and adults, mis information available online and in public places about the hazards of the vaccines and the scarce availability of religious exemptions have put many American and foreign lives in danger. There has also been no accountability of law enforcement or government for the senseless violence against American Africans until election time. Outside of election time American Africans have been facing adversities and promotion of adversities and public humiliation and propaganda with no government accountability, solutions, or a reasonable therapy plan or strategy for the crimes committed against the average American African citizen. These crimes against humanity leave long term, permanent effects for generations to come *and have never properly been addressed or corrected.*

- 1 Exercise normal precautions
- 2 Exercise increased caution
- 3 Reconsider travel
- 4 Do not travel

On behalf of ALL Black People of The World we are calling on all people worldwide to exercise extreme caution and have an emergency contingency plan when traveling throughout the USA.

1 Exercise normal precautions

2 Exercise increased caution

3 Reconsider travel

4 Do not travel

IF YOU DECIDE TO TRAVEL TO THE UNITED STATES

- Avoid places where large numbers of people gather, especially cultural events, places of worship, schools, and shopping malls
- Exercise increased caution when visiting local bars, nightclubs, and casinos.
- Be extra vigilant at all times and be wary of the ubiquity of firearms among the population especially caucasian males.
- If you notice a suspicious person in your neighborhood, make sure that that person is not in disguise as a black or melanated person.
- According to the National Crime Information Center in 2020 out of 346,000 U.S. girls and women reported missing 125,727 were African American.
- According to a report in Miami Times, The FBI has been classifying Latino children as White American despite the research that %24 of Latinos classify themselves as Afro-Latino.
- The United States of America is minimizing the missing persons numbers against African American children, marginalizing the entire stability of the nation.
- Latino missing person reports are going unreported because parents are afraid of deportation. There is no category for Afro-Latino at this time.
- Government officials, mayors, congressmen and police departments are not responding to these crimes against American African citizens and Afro-Latino missing children in America.
- Prices of food, gas, and threat to food security are at an ALL time High in America.
- There is a shortage of Baby Formula in The United States of America
- We The Black Peoples of The World do **NOT** want to meddle in the affairs of the Russian conflict. We saw how the African students were mistreated and held hostage in Ukraine.
- Russia has never done anything to threaten African countries or American African People.
- Laws are actively being discussed that jeopardize the Human Rights of All Americans without the community effort or consent of American Africans or Afro-Latinos.

• Laws and sanctions are being discussed about Africa that further jeopardize the international relationship of the African American peace and economic treaty drafted by Haile Selassie I in 1951.

Depending on the traveler's gender identity, race, country of origin, ethnic background, or sexual orientation, they may be at higher risk of being targeted with gun violence and should plan accordingly.

The United States of America has been infiltrated with the gentrification of urban neighborhoods and targeted by young and old caucasian males who have been getting away with public murder and no public resolution.

The media is glorifying the public assassination of American Africans and pushing its importance to the back of the line. All other race groups as well as homosexual groups have gotten recognition for their hate crimes publicly yet American Africans and Afro-Latinos are still waiting for justice.

Anti-African American Hate Crime Bill has ever been introduced or brought to the attention of any grass roots or ground roots organization acceptable by the American African citizens of The United States of America or The Ethiopian World Federation, Incorporated.
