This organization was established to protect our right to know our identity, to unite, build and resurrect our communities.

We are gathering all of the people who have been a part of this organization since 1937 and getting information about the Federation out to anyone that is not familiar with our historical inheritance from Emperor Haile Selassie I and his cousin Dr. Malaku Bayen.

We need every member to honor the Constitution and ByLaws and run your department and committee to its fullest capacity. We need you all to send in your schedules as this corporation was designed so that we can have a strong voice when meeting with World leaders.

We cannot wait any longer to be a part of the conversation as a whole.

We feel that all locals should join one large shareable database by December 2024. This is more than enough time to gather your members, get new members and get updated geographical location on all of your members incase of a next **World Emergency**. Once this happens we should be able to enjoy a beautiful Large Convention in 2024. We have two years to work and prepare for this private event. That will also give us all time to get to know each other and observe this New International Council operations and ability to execute solutions Internationally in a timely fashion. We have released a Worldwide “Vaccine Exempt” status for the comfortability of all of our members from our International Council. If you need assistance establishing your non profit status, online presence, podcast, church etc. please contact us as soon as possible.

Another important aspect of the council is to secure and disperse the Land Grant, present an architectural plan for the land, farming opportunities, health and wellness stability, solar energy plan, clean water, waste disposal, hospital, jobs, after school program, community center, burial grounds etc. for Shashamane.

We are proud to present a diverse council that can represent us Worldwide. We intend to reach every person in the World and bring our people together. We are all good listeners that believe in natural health, proper education and technology.

ARTICLE I.B.To promote and pursue happiness; for it is the goal of human life and endeavor.

We all love the right to freedom for all mankind, but most importantly the oppressed that have been treated unfairly since the loss of Dr. Malaku Bayen and

Emperor Haile Selassie I, King of Kings.
