**RE: The Safety and Security of Africans, Ethiopians, Hebrew Israelites, Human Rights, Religious Rights, Cultural rights & Traditional Rights during conflict**

## **To Whom This May Concern:**

For many years our organization has been waiting patiently and watching closely for a solution to the habitual Violations of Human Rights done to Ethiopian residents, The Beta Israel community, Hebrew Israelite community and Ethiopian women who have been subject to medical malpractice while living in Israel. *See link below*

We have also witnessed multiple reports of Human rights violations by the government of Israel, exponential amount of child trafficking, child sodomization, Religious rights violations to the Hebrew Israelite community, cultural rights violations and traditional rights violations while under the color of law which has made it difficult to provide assistance to the victims of these violations for many NGOs. *See link below*

## **RESOLUTION**

The Ethiopian community in Israel has faced a range of discriminatory practices that need to be addressed and tabled for resolution, including but not limited to:

- Lower wages and higher unemployment rates than other Israeli citizens
- Limited access to healthcare and education
- Racial profiling and police brutality
- Restrictions on access to housing and public spaces
- Disproportionate incarceration rates
- Limited access to government services and resources
- Systematic exclusion from decision-making processes

### **Whereas,**

These practices have had a devastating impact on the Ethiopian community in Israel, and deportation would only add to the existing injustices. We urge you to reconsider this decision as it will add to a long list of Child Trafficking Violations, Human Rights Violations, Cultural Violations and Traditional Violations. We encourage and demand an immediate release of The United Nations independent reports on these violations so the international community can review them for Global Safety and we ask that these marginalized African groups be protected and properly secured by independent security that will not put their lives in danger during this conflict. We also encourage the government of Israel to focus on creating a more equitable accountable society for all its citizens and reach a peaceful, fair solution that all parties can be proud of to regain stability and end conflict expeditiously.
